Muhammad Karen Armstrong, 2006-10-17 Muhammad was born in 570 CE and over the following sixty years built a thriving spiritual community laying the foundations of a religion that changed the course of world history There is more historical data on his life than on that of the founder of any other major faith and yet his story is little known Karen Armstrong s immaculately researched new biography of Muhammad will enable readers to understand the true origins and spirituality of a faith that is all too often misrepresented as cruel intolerant and inherently violent An acclaimed authority on religious and spiritual issues Armstrong offers a balanced in depth portrait revealing the man at the heart of Islam by dismantling centuries of misconceptions Armstrong demonstrates that Muhammad s life a pivot point in history has genuine relevance to the global crises we face today

The Quest of the Historical Muhammad and Other Studies on Formative Islam Stephen J. Shoemaker, 2024-07-09 The lead essay in this book is the first effort to approach the historical figure of Muhammad in a manner comparable to the investigations that biblical scholars have made in the effort to recover the historical figure of Jesus Using comparable methods and approaches this study demonstrates that despite a widely held belief that Islam was born in the full light of history we in fact know considerably less about both Muhammad and the beginnings of Islam than we do about the historical Jesus and the beginnings of Christianity Also included are republications of four previously published essays dealing with such topics as the Qur an s

status as a late ancient biblical apocryphon the relation between the Jerusalem Temple and the Holy House revered by the Qur'an and the imminent eschatology of the Qur'an and the early Islamic tradition

### **Muslim American Renaissance**

**Project** Dr. Souheil Ghannouchi, 2012-05-24 This is more than a book it is a manifesto It advocates a project through which participants will launch an American renaissance movement inspired by a new revitalized and uniquely American expression of Islam This book is the product of more than twenty years of extensive research and interaction with communities across America That background preparation has given the author Dr Souheil Ghannouchi a deep understanding of Islam of history and of the reality in which all Americans including Muslim Americans live Additionally the text benefits from Dr Ghannouchi's careful study and observation of world events and from his comprehension of the universal rules that govern the rise and fall of both nations and movements This volume was originally meant to be the intellectual foundation for a renaissance movement for all Americans and it was to be aimed at reviving the American Dream and restoring America's fundamental values based on the founding fathers vision The idea of recruiting all Americans to the task was inspired by serious concerns about America's current situation and future risks and by a firm belief that America can and should be the world's foremost champion for compassion peace justice and prosperity At the same time the book was intended to spearhead the renaissance of the Muslim American community so that it would begin to play a meaningful role in making the needed change in America However even though both the entire country and more specifically the Muslim community are in dire need of fundamental change it became clear to the author that the two objectives could not be adequately advocated with one publication Thus this book focuses mainly on Muslim Americans and it constitutes a manifesto for a renaissance in the American Muslim community and a blueprint for our full integration into the greater American society Stemming from the author's firm conviction that both our nation and our community are experiencing a severe crisis this book is prompted by his grave concern for the future as well as his unshakable resolve to significantly contribute towards the fundamental change that is needed right now within our society His concerns and his resolve are shared by other Muslim Americans who will join in launching this project We invite all Americans to participate Even though Islam and Muslims have been present in the U S in one form or another for a long time the Muslim American community is still regarded as a newcomer One reason is that the connections with the greater American society have been weak and complicated The Nation of Islam which is largely comprised of United States born African American Muslims is widely viewed as a Black nationalist movement rather than an Islamic phenomenon And even though immigrant Muslims began to establish Islamic centers as early as the beginning of the 20th century and also despite the establishment of the first chapter of the Muslim Student Association MSA in 1963 the organized presence of orthodox Islam did not truly emerge in America until the 1970s The real proliferation of mosques schools and Islamic organizations took place as recently as the 80s and 90s Furthermore the integration of the Muslim American community into the greater American society stalled because of some typical factors that were exacerbated by

religious and political issues and by some domestic and global events As a result the Muslim community was plunged into a deep crisis and became for other Americans a puzzle and a source of major challenge especially after the 9 11 catastrophe A huge divide was established between the community and American society at large and a vicious action reaction cycle is only reinforcing the divide and widening the gap Moreover the attempts at healing undertaken by both sides are not really improving the situation because the efforts made are too few and too i

Religious Conflict from Early Christianity to the Rise of Islam Wendy Mayer, Bronwen Neil, 2013-08-29 Conflict has been an inescapable facet of religion from its very beginnings This volume offers insight into the mechanisms at play in the centuries from the Jesus movement's first attempts to define itself over and against Judaism to the beginnings of Islam Profiling research by scholars of the Centre for Early Christian Studies at Australian Catholic University the essays document inter and intra religious conflict from a variety of angles Topics relevant to the early centuries range from religious conflict between different parts of the Christian canon types of conflict the origins of conflict strategies for winning for conflict resolution and the emergence of a language of conflict For the fourth to seventh centuries case studies from Asia Minor Syria Constantinople Gaul Arabia and Egypt are presented The volume closes with examinations of the Christian and Jewish response to Islam and of Islam's response to Christianity Given the political and religious tensions in the world today this volume is well positioned to find relevance and meaning in societies still grappling with the monotheistic religions of Judaism Christianity and Islam

**The Soul** Paul Ham, 2025-08-05 Wonderfully entertaining Michael McGirr Sydney Morning Herald I am absolutely in awe of this book Hugh Mackay AO Almost everyone thinks they

have one but nobody knows what it is For thousands of years the soul was an organ an entity something that was part of all of us that survived the death of the body and ventured to the underworld or to heaven or hell The soul could be saved condemned tortured bought And then mysteriously the soul disappeared The Enlightenment called it the mind And today neuroscientists demonstrate that the mind is the creation of the brain The religious soul lives on in the minds of the faithful while the secular soul means whatever you want it to mean In *The Soul A History of the Human Mind* critically acclaimed historian Paul Ham embarks on a journey that has never been attempted to restore the idea of the soul to the human story and to show how belief in and beliefs arising from the soul mind have animated and driven the history of humankind The Soul is much more than a mesmerizing narrative and uniquely accessible way of explaining our story It transforms our understanding of how history works It persuasively demonstrates that the beliefs of the soul mind are the engines of human history
