WD-52628 Shown

Overview

The 628 Series 1080p DLP® HDTVs employ advanced signal processing and the latest 1080p DLP® chip for unsurpassed detail to produce an exceptional picture quality.

Mitsubishi includes the latest in digital signal processing to get the most from this optical system. Dark Detailer™ provides deep blacks and enhanced dark scene detail. Mitsubishi also uses a high speed video processor called Plush1080p™ that upconverts 1080i signals to 1080p producing four times the resolution of traditional line doublers. DeepField™ imager uses new techniques to optimize brightness and contrast within every scene while SharpEdge™ delivers clean, focused edges between objects and scene backgrounds. The result is exquisite picture clarity from any source in every scene.

With Mitsubishi's ClearThought™ technology, digital TV becomes easy to use. These televisions also feature a Digital Cable Ready HDTV tuner with CableCARD™ slot, two HDMI™ digital inputs, and multi-format memory card readers to easily view pictures and playback digital audio files.
