Key findings from the final report of the Rose review into the teaching of reading, March 2006

"The forthcoming Early Years Foundation Stage and the renewal of the Primary National Strategy framework for teaching literacy provide powerful opportunities to reinvigorate and build upon these achievements and greatly reduce arbitrary boundaries between the Foundation Stage and Key Stage 1, without compromising the hard won, distinctive merits of the areas of learning and experience in the early years.

"In so doing, the new Early Years Foundation Stage and the renewed framework should make sure that best practice for beginner readers provides them with a rich curriculum that fosters all four interdependent strands of language: speaking, listening, reading and writing. The indications are that far more attention needs to be given, right from the start, to promoting speaking and listening skills to make sure that children build a good stock of words, learn to listen attentively and speak clearly and confidently. Speaking and listening, together with reading and writing, are prime communication skills that are central to children's intellectual, social and emotional development. All these skills are drawn upon and promoted by high quality, systematic phonic work.

"Engaging young children in interesting and worthwhile pre-reading activities paves the way for the great majority to make a good start on systematic phonic work by the age of five. Indeed, for some, an earlier start may be possible and desirable. This is because it  serves children to hold them back from starting systematic phonic work that is matched to their developing abilities and enables them to benefit from the wealth of opportunities afforded by reading from an early age. All that said, the introduction of phonic work should always be a matter for principled, professional judgement based on structured observations and assessments of children's capabilities."

The key recommendations in the Rose review build upon those proposed in the interim report, published December 2005. The recommendations are listed below for each area highlighted for examination by the report:

Best practice in teaching of early reading and synthetic phonics

- The forthcoming Early Years Foundation Stage and the renewed Primary National Strategy Framework for teaching literacy should provide, as a priority, clear guidance on developing children's speaking and listening skills.
- High-quality, systematic phonic work as defined by the review should be taught discretely. The knowledge, skills and understanding that constitute high-quality phonic work should be taught as the prime approach in learning to decode (to read) and encode (to write/spell) print.
- Phonics work should be set within a broad and rich language curriculum that takes full account of developing the four interdependent strands of language: speaking, listening, reading and writing and enlarging children's stock of words.

National Curriculum Great Britain. Parliament. House of Commons. Children, Schools and Families Committee, Great Britain: Parliament: House of Commons: Children, Schools and Families Committee, 2009 The Committee for Children Schools and Families recommends major changes to the nature and management of the national curriculum In its current form the national curriculum essentially accounts for all the available teaching time and the Committee would like to see a cap placed so that less than half that time is prescribed centrally A slimmed down national curriculum designed much more from the learner's perspective setting out the learning that they have a right to access is recommended Parents should be provided with a copy of the national curriculum so that they can take on a greater role in overseeing the curriculum that their child experiences The Committee is not convinced by the proposed Programmes of Study for the primary curriculum put forward in the interim report of the Rose Review available at <http://publications.teachernet.gov.uk> which seem unnecessarily complex takes a similar view on the new secondary curriculum and is concerned at some of the Early Learning Goals specified in the Early Years Foundation Stage there should be more emphasis at this stage on developing speaking listening and social skills All schools should have the freedoms in curriculum matters enjoyed by Academies and should not be pressured to follow the non statutory National Strategies guidance The report also stresses the importance of empowering professional teachers rather than the current approach of prescription and direction The coherence and continuity in the curriculum is another concern with a history of piecemeal creation and amendment to frameworks from 0 to 19 The Committee recommends an independent curriculum authority be established to review and then keep the curriculum refreshed
