Advances in Human Factors in Training, Education, and Learning Sciences Salman Nazir, Tareq Z. Ahram, Waldemar Karwowski, 2021-06-26 This book addresses the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices relating to the application of behavioral and cognitive science and new technologies in the design of instructional and training content. Translation Studies has recently been searching for connections with Cultural Studies and Sociology. This volume brings together a range of ways in which the disciplines can be related, particularly with respect to research methodologies. The key aspects covered are the agents behind translation, the social histories revealed by translations, the perceived roles and values of translators in social contexts, the hidden power relations structuring publication contexts, and the need to review basic concepts of the way social and cultural systems work. Special importance is placed on Community Interpreting as a field of social complexity, the lessons of which can be applied in many other areas. The volume studies translators and interpreters working in a wide range of contexts, ranging from censorship in East Germany to English translations in Gujarat. Major contributions are made by Agnieszka Whitfield, Daniel Gagnon, Franz Pfeiffer, Michaela Wolf, Pekka Kujala, and Rita Kothari, with an extensive introduction on methodology by Anthony Pym. **Summaries of Papers**, 1924 *State Taxation of Foreign Source Income* United States.
