Journey into the Wilderness

- 1 In 1804, Meriwether Lewis and William Clark began an expedition. They chose forty other adventurous men to go with them. These brave men went into an unknown wilderness. They would find wild animals. They would travel dangerous rivers. They would face hostile Native Americans. Yet, they would make great discoveries that would help America.
- 2 In 1803, the United States bought an enormous piece of land claimed by France. This land is known as the Louisiana Purchase. 828,000 square miles of land was called the Louisiana Territory. This territory more than doubled the size of the United States. However, no one knew much about the Louisiana Territory. No one knew much about the plants, animals, or Native Americans there.
- 3 President Thomas Jefferson wanted a group to explore the land. He had three main goals. First, he wanted explorers to find a way to travel by water from the Mississippi River west to the Pacific Ocean. Second, he wanted them to find new plants and animals. Third, he wanted them to meet Native Americans who lived there.

Look at the Venn diagram. It shows similarities and differences between Meriwether Lewis and William Clark.

What best completes the diagram?

- 7 Read paragraph 4. The main idea of this paragraph is that worms eat dirt and eat a lot of it. Which sentence from the paragraph best supports this main idea?

Select only **ONE** correct answer.

- 4 That's right. Worms eat dirt, and they eat pounds of it. ☒ In fact, in just one acre of land, worms eat as many as fifteen tons of dirt each year! As a worm moves through the ground, moist soil enters its mouth. ☐ There are small pieces of decaying plants and animals in the soil. The worm digests the small pieces. ☐ From time to time, the worm moves to the surface. It passes the leftover dirt out through its tail. This unused dirt is called castings. ☐ You have likely seen castings on the ground.

- want or to ☐ practice ☐ practices ☐ practice no religion at all. ☐ practise

- 19 What is the correct way to write sentences 13 and 14?

- ☐ In some countries, people are told that they have to worship a certain way.

 Our 2nd edition California 3rd Grade Math Test Prep for Common Core State Standards is an excellent resource to
 supplement your classroom s curriculum to assess and manage student s understanding of concept outline in the Common
 Core State Standards Initiative This resource is formatted into three sections Diagnostic Practice and Assessment with
 multiple choice questions in each section This resource contains over 500 practice problems aligned to the Common Core
 State Standards with an answer key **3rd Grade CAASPP Test Prep** Mark Shannon,2018-01-16 This test prep is good for
 kids who are on the fence and having trouble passing or need to increase their margin These kids will often say I DON T
 KNOW WHERE TO START when explaining their confusion This book address that problem with three approaches 1 In
 contrast with the other study guides that use random questions in their practice exams this book collated the questions into
 chapters based on the logic to solve them The 3rd grade book is divided into seven chapters They are Logic Arithmetic
 Geometry Fractions Reading Graphs and tables Measurements including a ruler and basic statistics or odds of occurrence
 This book teaches basics then goes into practice exams with word problems Once the student is proficient with the questions
 organized into chapters then they are ready for random questions 2 This study guide has thousands of practice problems I
 have placed over 3100 videos on YouTube showing you how to work the problems 3 I reviewed several years of past exams
 and placed enfaces on the easiest and most common questions Mastering these questions should yield a 75% to 80% If a
 student is already achieving this percentage the other guides or web site with random questions and covering all material
 might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest

questions are using a ruler to measure The web designers don't know the size of your computer screen and can't determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best Regards Mark Shannon **Hawaii 3rd Grade Math Test Prep** Teachers
