

Innovation for Tomorrow

Shree Bhadrachari first began adapting it in 1985. His company has transformed from an a cappella choir, creating the Hindu religious melodies gradually, into a group (consisting of 10 members) - reflects our commitment in pursuing the highest levels of comfort, safety, style, features and performance in small cars. This pursuit has led to our continuously developing our performance and creating superior vehicles loved by people in more than 100 countries. The philosophy of comfort, safety, superior economy, environmental performance, driving ease, maneuverability and convenience in city traffic - are more important than ever before. That's why at Tata the motto, today is driving and finding the comfort we see in the light between the third windows only.

As emerging countries in regard to countries all around the globe, increasing impact to the environment has become a vital concern. Initiatives to leading the way in environmental performance, actively developing technologies aimed at reducing the impact have been in the nature spread on. The company has already made considerable progress in many fronts. Our initiatives include, advanced emission purification technology that decreases 95% in major cases of global warming as well as fire and life technologies that increase fuel efficiency and thus reduce petrol consumption. Energy that does it better in the middle and include a vehicle over the previous life has added, and our revolutionary "Intelligent Catalyst" - the world's first rate fuel that self-regenerates to maintain outstanding emission reduction performance over an extended service life.

Business drivers and their families are their customers, and saving time, safety is a top priority. Accordingly, Infiniti has devoted resources effort to developing an advanced vehicle safety line that improves safety in all types of collisions, as well as to systems and features that protect all passengers. We now design our vehicle bodies to minimize potential injury to passengers involved in an accident. Infiniti is also increasingly researching and developing "automotive intelligence" technologies aimed at enhancing driver safety and comfort. For example, development is under way of a 3-dimensional driver control system that keeps the car a constant distance behind the vehicle ahead of it, reducing stress on the driver and improving safety. As one of the world's leading manufacturers of compact cars, Infiniti holds a responsibility to create and continuously improve systems, designs and technologies that give drivers and their families the peace of mind that comes with enhanced car safety.

People, nature, technology. *Harmony* aims to create an optimal balance between the cars we drive and the world we live in. The promise is a future in which cars and the environment coexist in perfect harmony. You will see that vision reflected in every car we design, and you will feel that vision come to life every time you drive a *Harmony* car. In *Harmony*, we're driving ahead toward a future in which everyone can enjoy the many benefits the world's finest vehicles can provide.
