The 'Resource' Approach to Mathematics Education Luc
 Trouche, Ghislaine Gueudet, Birgit Pepin, 2019-11-29 This edited volume will help educators better analyze methodological
 and practical tools designed to aid classroom instruction It features papers that explore the need to create a system in order
 to fully meet the uncertainties and developments of modern educational phenomena These have emerged due to the
 abundance of digital resources and new forms of collective work The collected papers offer new perspectives to a rising field
 of research known as the Documentational Approach to Didactics This framework was first created by the editors of this book
 It seeks to develop a deeper understanding of mathematics teaching expertise Readers will gain insight into how to meet the
 theoretical questions brought about by digitalization These include how to analyze teachers work when they prepare for their
 teaching how to conceptualize the relationships between individual and collective work and how to follow the related
 processes over the long term The contributors also provide a comparative view in terms of contrasting selected phenomena
 across different educational cultures and education systems For instance they consider how differences in curriculum
 resources are available to teachers and how teachers make use of them to shape instruction Coverage also considers the
 extent to which teachers make use of additional material particularly those available through the global marketplace on the
 Internet This book builds on works from the Resources 2018 Conference Understanding teachers work through their
 interactions with resources for teaching held in Lyon France
