microscopy expressed chiefly in systems employing small often pulsed x ray sources and c increased rate of exploration of applications of x ray microscopy The number of papers presented at the symposium has roughly doubled compared with that of its predecessors While we are delighted at this growth as a manifestation of vitality and rapid growth of the field we did have to ask the authors to limit the length of their papers and to submit them in camera ready form We thank the authors for their contributions and for their efforts in adhering to the guidelines on manuscript preparation
