*A Teacher's Guide to Classroom Research* David Hopkins, 2008-09 This practical guide is for teachers who wish to undertake research in their classrooms with a view to improving their practice It will enable teachers to enhance their own or their colleagues teaching and to test educational theory *Mathematics Today*, 2007 *Philosophy of Education* Laura D'Olimpio, Jane Gatley, Ruth Wareham, 2025-09-30 This textbook provides an up to date accessible introduction to the philosophy of education with a focus on the conceptual and normative questions raised by educational policy and practice The key concepts explored include learning teaching indoctrination knowledge equality intelligence virtue and rights Clarifying the meanings of these terms is vital for educators to be able to explain what they do and why Such conceptual analysis helps us to address normative questions about what should or should not be done educationally speaking Each chapter firstly examines one key concept which is then connected to a theorised aim of education The aims considered are rationality i e critical thinking knowledge social justice vocational preparation flourishing and political participation citizenship These aims of education are all hotly debated so their strengths and weaknesses are considered Each chapter concludes with a third section connecting the key concept and aim of education under discussion to an applied example The applied examples include religious schools attainment gaps in education the educational impact of the coronavirus pandemic the curriculum teaching ethics in schools as a form of moral education and citizenship education These applied examples are drawn from vital social and political issues within education By critically engaging with and then building upon extant literature this book demonstrates how conceptual and normative issues within education have real world implications At the end of each chapter there are pedagogical resources designed to support teachers and students These include a chapter summary a list of recommended and further readings and online resources as well as a list of study and research questions This book is essential reading for all undergraduate and postgraduate students of the philosophy of education It is also ideal for use on education theory courses and will be of interest to those studying philosophy or education **A Teacher'S Guide To Classroom Research** Hopkins, David, 2014-10-01 A Teacher s Guide to Classroom Research is a great one stop guide for student or qualified teachers looking to undertake classroom research **Learning to Teach Geography in the Secondary School** Mary Biddulph, David Lambert, David Balderstone, 2015-05-20 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography It helps you acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and challenging lessons It is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education The very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school Fully revised and updated in light of extensive changes

to the curriculum as well as to initial teacher education the new edition considers the current debates around what we mean by geographical knowledge and what is involved in studying at Masters level Key chapters explore the fundamentals of teaching and learning geography Why we teach and what to teach Understanding and planning the curriculum Effective pedagogy Assessment Developing and using resources Fieldwork and outdoor learning Values in school geography Professional development Intended as a core textbook and written with university and school based initial teacher education in mind Learning to Teach Geography in the Secondary school is essential reading for all those who aspire to become effective reflective teachers Praise for previous editions of Learning to Teach Geography in the Secondary School This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work a standard reference for many beginning teachers on geography initial teacher training courses Educational Review

**How to Run Your Department Successfully** Chris Turner, 2005-04-29 It is increasingly being acknowledged that subject leaders hold the key to school improvement and professional development However there is little information available for subject leaders to help them with the day to day practicalities of running a department on top of existing teaching commitments This uniquely practical book deals specifically with current issues faced by subject heads of department HoDs Engagingly and entertainingly written this book covers the major areas of concern to subject leaders including leadership styles managing staff managing pupil performance strategic planning curriculum development and coping with problems

**Girlhood, Schools, and Media** Michele Paule, 2016-09-13 This book explores the circulation and reception of popular discourses of achieving girlhood and the ways in which girls themselves participate in such circulation It examines the figure of the achieving girl within wider discourses of neoliberal self management and post feminist possibility considering the tensions involved in being both successful and successfully feminine and the strategies and negotiations girls undertake to manage these tensions The work is grounded in an understanding of media educational and peer contexts for the production of the successful girl It traces narratives across school television and online in texts produced for and by girls drawing on interviews with girls in schools online forum participation within the purpose built site [www.smartgirls.tv](http://www.smartgirls.tv) and girls discussions of a range of teen dramas
