

Mazan le 15/03/14

Lettre ouverte à M. le Maire,

Cette nuit, en rentrant à Mazan par la route de Carpentras, j'ai été atterré par la vision que j'ai eue.

Depuis des années, en passant par certains villages comme Ville-sur-Auzon, Velleron, Saint Didier et pleins d'autres je me disais qu'à Mazan nous avions la chance de ne pas avoir, comme eux, au centre du village, une énorme source de pollution lumineuse.

Et bien ça y est, nous faisons partie du club. Notre église brille de mille feux.

Sous le maire précédent, il m'avait suffi de discuter pendant 10 mn dans une librairie avec une de ses adjointes pour la sensibiliser au problème de la pollution lumineuse, elle m'avait demandé de la documentation pour pouvoir en parler avec lui. Celui-ci m'a expliqué plus tard, qu'il avait donc refusé les éclairages décoratifs implantés dans le sol et demandé (malgré l'opposition bien compréhensible des éclairagistes) de ne mettre des lampadaires que d'un seul côté de la Venue de Carpentras. Tous les utilisateurs de cet axe ont pu se rendre compte que c'était largement suffisant et je cite souvent cette réalisation en exemple lors de réunions ou sur les forums d'internet.

Lors de la précédente campagne électorale je suis intervenu pendant une de vos réunions publiques (tout comme chez certains de vos adversaires), pour vous sensibiliser à ce problème méconnu, qu'est la pollution lumineuse. C'est un fléau pour les espèces vivantes, à chacune de nos rencontres ce fut quasiment le seul sujet de nos conversations chaque fois vous m'avez dit que vous en tiendrez compte.

Je vois encore une fois que ce n'est pas le cas.

Pour rappel, les bonnes pratiques sont pourtant simples et de bon sens : ne pas mettre d'éclairage de bas en haut (la plus grande partie de la lumière émise se perd dans le ciel), limiter sa puissance au strict nécessaire (pas besoin d'y voir comme en plein jour), limiter son utilisation dans le temps (si il n'y a personne pour en profiter, elle ne sert à rien), préférer des éclairages monochromatiques plutôt que ceux à large spectre (plus facile à filtrer pour les astronomes), ne pas éclairer au-dessus de l'horizontale, mettre des caches sur les projecteurs pour la limiter au bâtiment visé, éviter les glaces latérales des lampadaires qui la diffusent, etc. . En fin de compte, c'est un peu comme le tabac, l'alcool, la vitesse et autres, à petites doses c'est bon, sinon, ça peut vous tuer.

Dès votre arrivée, vous avez permis l'implantation des éclairages décoratifs encastrés dans le sol, malgré le fait de n'avoir jamais vu de touristes chinois s'extasier devant eux à 3 heures du matin, j'ai pensé à une erreur de jeunesse bien malheureuse, mais une erreur quand même. Comme je le disais à mes élèves pilotes la première fois, c'est une erreur, on s'explique, mais la deuxième fois, ça devient une faute.

J'ai donc rencontré votre responsable technique, pour lui donner quelques informations ainsi que de la documentation, je suis passé aussi au service du Cadastre pour voir si on pouvait limiter l'éclairage des lotissements en construction. A l'heure où de plus en plus de communes coupent totalement ou en partie leurs éclairages publics, à l'heure où l'Etat (par les Grenelles de l'environnement, par l'obligation de coupure de certains éclairages, par une politique d'économie d'énergie, etc.) et les médias (journaux télévisées, émissions médicale ou autres) prennent en compte ce problème, à l'heure où le réchauffement climatique nous pousse vers le gouffre, notre village vient de faire un pas de plus vers lui.

Depuis le début de l'apparition de la vie sur terre, celle-ci est régie par l'alternance jour-nuit. Cela fait moins d'un siècle que l'éclairage public est apparu. Ce n'est pas suffisant pour que la flore, la faune et
