Field-Programmable Gate Array (FPGA) Technologies for High Performance Instrumentation Gazzano, Julio Daniel Dondo, Crespo, Maria Liz, Cicutin, Andres, Calle, Fernando Rincon, 2016-07-05 Field Programmable Gate Array FPGA technologies have increased in popularity in recent years due to their adaptability and high computing potential Further research in this area illustrates the potential for further advancements and applications of this useful technology Field Programmable Gate Array FPGA Technologies for High Performance Instrumentation presents experimental and theoretical research on FPGA based design and the development of virtual scientific instrumentation that can be used by a broad segment of scientists across a variety of research fields Focusing on crucial innovations and algorithms for signal processing data acquisition mechanisms FPGA based hardware design and parallel computing this publication is a critical resource for researchers development engineers and graduate level students *Handbook on Spray Drying Applications for Food Industries* M. Selvamuthukumaran, 2019-07-12 Spray drying is a mechanical process by which materials in liquid form can be converted into solid form such as powders It is a rapid continuous cost effective reproducible and scalable process for producing dry powders from a fluid material by atomization through an atomizer into a hot drying gas medium usually air The Handbook on Spray Drying Applications for Food Industries deals with recent techniques adopted in spray drying systems for drying a vast array of food products novel and emerging tools used for spray drying of antioxidant rich products optimized conditions used for extraction and production of herbal powders by using spray drying techniques and problems encountered during spray drying of acid and sugar rich foods and also various herbal powders The book discusses the encapsulation of flavors by using the spray drying process providing a comparison with other encapsulation techniques It reviews the retention of bioactive compounds and the effect of different parameters on bioactive compounds during spray drying of juice Moreover the book explains the effect of novel approaches of spray drying on nutrients The book addresses strategies adopted for retention of nutrients and survival of probiotic bacteria during spray drying processing It also identifies packaging material needed for enhanced product stability The safety and quality aspects of manufacturing spray dried food products are discussed Key Features Describes the design of high performance spray drying systems Highlights the strategy adopted for maximizing the yield potential of various spray dried food products Discusses strategies adopted for retention of nutrients and survival of probiotic bacteria during spray drying process Contains charts procedure flow sheets tables figures photos and a list of spray drying equipment suppliers This book will benefit entrepreneurs food scientists academicians and students by providing in depth knowledge about spray drying of foods for quality retention and also for efficient consumer acceptability of finished products Handbook of Lung Targeted Drug Delivery Systems Yashwant Pathak, Nazrul Islam, 2021-10-17 Handbook of Lung Targeted Drug Delivery Systems Recent Trends and Clinical Evidences covers every aspect of the drug delivery to lungs the physiology and pharmacology of the lung modelling for lung delivery

drug devices focused on lung treatment regulatory requirements and recent trends in clinical applications With the advent of nano sciences and significant development in the nano particulate drug delivery systems there has been a renewed interest in the lung as an absorption surface for various drugs The emergence of the COVID 19 virus has brought lung and lung delivery systems into focus this book covers new developments and research used to address the prevention and treatment of respiratory diseases Written by well known scientists with years of experience in the field this timely handbook is an excellent reference book for the scientists and industry professionals Key Features Focuses particularly on the chemistry clinical pharmacology and biological developments in this field of research Presents comprehensive information on emerging nanotechnology applications in diagnosing and treating pulmonary diseases Explores drug devices focused on lung treatment regulatory requirements and recent trends in clinical applications Examines specific formulations targeted to pulmonary systems

Position, Navigation, and Timing Technologies in the 21st Century Y. Jade Morton, Frank van Diggelen, James J. Spilker, Jr., Bradford W. Parkinson, Sherman Lo, Grace Gao, 2020-12-12 Covers the latest developments in PNT technologies including integrated satellite navigation sensor systems and civil applications Featuring sixty four chapters that are divided into six parts this two volume work provides comprehensive coverage of the state of the art in satellite based position navigation and timing PNT technologies and civilian applications It also examines alternative navigation technologies based on other signals of opportunity and sensors and offers a comprehensive treatment on integrated PNT systems for consumer and commercial applications Volume 1 of Position Navigation and Timing Technologies in the 21st Century Integrated Satellite Navigation Sensor Systems and Civil Applications contains three parts and focuses on the satellite navigation systems technologies and engineering and scientific applications It starts with a historical perspective of GPS development and other related PNT development Current global and regional navigation satellite systems GNSS and RNSS their inter operability signal quality monitoring satellite orbit and time synchronization and ground and satellite based augmentation systems are examined Recent progresses in satellite navigation receiver technologies and challenges for operations in multipath rich urban environment in handling spoofing and interference and in ensuring PNT integrity are addressed A section on satellite navigation for engineering and scientific applications finishes off the volume Volume 2 of Position Navigation and Timing Technologies in the 21st Century Integrated Satellite Navigation Sensor Systems and Civil Applications consists of three parts and addresses PNT using alternative signals and sensors and integrated PNT technologies for consumer and commercial applications It looks at PNT using various radio signals of opportunity atomic clock optical laser magnetic field celestial MEMS and inertial sensors as well as the concept of navigation from Low Earth Orbiting LEO satellites GNSS INS integration neuroscience of navigation and animal navigation are also covered The volume finishes off with a collection of work on contemporary PNT applications such as survey and mobile mapping precision agriculture wearable systems automated driving train control commercial unmanned aircraft systems aviation and navigation

in the unique Arctic environment In addition this text Serves as a complete reference and handbook for professionals and students interested in the broad range of PNT subjects Includes chapters that focus on the latest developments in GNSS and other navigation sensors techniques and applications Illustrates interconnecting relationships between various types of technologies in order to assure more protected tough and accurate PNT Position Navigation and Timing Technologies in the 21st Century Integrated Satellite Navigation Sensor Systems and Civil Applications will appeal to all industry professionals researchers and academics involved with the science engineering and applications of position navigation and timing technologies pnt21book.com
