## **Journey To The Center Of The Earth:**

**Journey to the Center of the Earth** Jules Verne,1991-10-01 Written almost a century before the daring flights of the astronauts Jules Verne's prophetic novel of man's race to the stars is a classic adventure tale enlivened by broad satire and scientific acumen When the members of the elite Baltimore Gun Club find themselves lacking any urgent assignments at the close of the Civil War their president Impey Barbicane proposes that they build a gun big enough to launch a rocket to the moon But when Barbicane's adversary places a huge wager that the project will fail and a daring volunteer elevates the mission to a manned flight one man's dream turns into an international space race A story of rip roaring action humor and wild imagination From the Earth to the Moon is as uncanny in its accuracy and as filled with authentic detail and startling immediacy as Verne's timeless masterpieces 20 000 Leagues Under the Sea and Around the World in Eighty Days

**Journey to the Center of the Earth** Jules Verne,2008 This book in graphic novel format retells the story of men who climb deep inside a volcano and discover amazing wonders **Journey to the Center of the Earth** Verne Jules,2010-09-01 Themes Hi Lo adapted classics low level classics graphic novel These literary masterpieces are made easy and interesting This series features classic tales retold with color illustrations to introduce literature to struggling readers Each 64 page softcover book retains key phrases and quotations from the original classics Take a journey into the future of science and imagination as seen through the eyes of Jules Verne The adventures of Henry Hans and Professor Von Hardwigg take the reader from the surface of a planet they know to a world alien to them located deep inside the earth Verne shows man's ability to survive even in the most adverse conditions and proves that survival is man's most basic instinct He brings out the adventurer in all of us *Journey to the Center of the Earth-Voyage Au Centre de la Terre: English-French Parallel Text Edition* Jules Verne,2010-04-25 Jules Verne's classic Journey to the Center of the Earth Voyage au centre de la Terre is presented in English French parallel text complete and unabridged A learned professor deciphers ancient runes that lead him to the earth's core and discoveries older than he dared imagined With douard Riou art reproduced from the first 1867 illustrated edition The Bilingual Library presents the world's classics in parallel text Each page in the original language is mirrored by its English translation on the facing page Series editor D Bannon is a member of the American Literary Translators Association and the American Translators Association **Journey to the Center of the Earth , A Journey to the Center of the Earth** Jules Verne,2003-09-02 From the discovery of a strange parchment in an old bookseller's shop to the fantastic descent through a dormant volcano into a subterranean world of danger and beauty A Journey to the Center of the Earth is as wonderfully entertaining today as when it was first published One of Jules Verne's finest novels its unique combination of hard science and vivid imagination helped establish this brilliant Frenchman as the father of modern science fiction A high tension odyssey it depicts three men who venture into an unknown fearsome underworld to discover what lies at the mysterious center of the earth while risking their chances of ever returning to the surface alive With an Introduction

by Bear Grylls and an Afterword by Leonard Nimoy      Quicklet on Jules Verne's Journey to the Center of the Earth Sourya Biswas,2012-02-16 ABOUT THE BOOK I have always loved science fiction Even as a child the stars on a clear night sky brought to my mind the possibilities of interstellar travel visits to the seaside on vacations made me think of living below the sea This love of the impossible or in many cases future possible lives in me even today and that is why I have also tried putting some of my imagination on paper in the form of short stories And even today Jules Verne s Journey to the Center of the Earth remains one of my favorite works of fiction MEET THE AUTHOR Sourya Biswas was a former risk analyst and have worked with several financial organizations of international repute besides being a professional journalist with several articles published online After 6 years of work I decided to pursue my MBA from the University of Notre Dame I have a Bachelors in Engineering from the Indian Institute of Information Technology I m also a member of high IQ organizations Mensa and Triple Nine Society and am negotiating with publishers to get his science fiction work published EXCERPT FROM THE BOOK Journey to the Center of the Earth or Voyage au centre de la Terre in the original French was published for the first time in 1864 The book was inspired by Charles Lyell s Geological Evidences of the Antiquity of Man of 1863 This was a period in which there was a sea change in how scientific circles perceived the history of the earth Biblical notions of the earth being only a few thousand years old were being gradually abandoned and the study of geological ages had begun In that context the book was an educational treatise in addition to an entertaining read Though science today discounts the possibility of subterranean worlds populated by ancient creatures existing miles below our feet it is a fascinating read nevertheless Granted that Journey to the Center of the Earth does not seem as scientifically feasible as undersea travel presented in Twenty Thousand Leagues under the Sea but Jules Verne s imagination is hard to ignore And there s a lot of genuine science in the story which considering the time it was written in is uncannily accurate Buy a copy to keep reading
