believed that their illness was just a possession of evil spirits and had nothing to do with mental issues. With such belief they concluded that the perfect cure for the disease is through temple healing. A few patients knew of mental health problems. They sought medical assistance but due to their inability to afford the medical expenses, medication challenges, and slight improvement, they opted for temple healing. The use of different specified rituals in assisting people with mental illness improved the situation of the patients as explained. However, some reported that they are feeling better at the time of staying around the temple but when they return home the illness begins.
