These days, it is not unusual to see people listening to music or using their electric gadgets while crossing busy roads or travelling on public transports, regardless of the risks involved. I have often wondered why they take such risks, is it because they want to exude a sense of independence or is it that they want to tell the world to stop bothering them? Or is it that they just want to show how cool they are? Whether it is a workman or an executive, earphones have become an inseparable part of our lives, sometimes even leading to tragicomic situations.
