#### Directions:

For this assessment, you will practice using potential energy diagrams. Respond to the questions below on energy diagrams. Then submit the answers to your teacher.

Remember that you cannot copy text directly from another source and use it as your own writing. Copying the writing of someone else and passing it off as your own is plagiarism. Plagiarism is unethical, and plagiarized material will not be accepted. In addition, if you plagiarize, you may also be violating copyright protections on material. Violating copyright is illegal. Your findings must be presented in your own words, combining information from all the sources you use.

#### Questions (40 points possible)

1. Consider the potential energy diagram shown below. This graph shows the chemical potential energy in a reaction system over time. The y-axis is potential energy in kilojoules. The x-axis is the reaction progress, or time.

- A) Does this graph represent an endothermic or exothermic reaction? Explain your answer. (2 points)
- Endothermic. The products are at a higher energy level than the reactants.
