Sistema de administración de contenidos de aprendizaje Juan Gabriel Contreras Sansores, Editorial Digital UNID, 2018-01-31 En los últimos años se han dado cambios estructurales en la forma de impartir clases en los distintos niveles educativos. Hasta hace algunos años los docentes solamente utilizaban pizarra y borrador para impartir una cátedra y algunos se apoyaban también en acetatos. Hoy en día con la llegada del Internet así como el uso cada vez más generalizado de computadoras portátiles y dispositivos como los celulares algunos docentes tratan de aprovechar estas herramientas tecnológicas como apoyo a sus actividades de docencia. Por lo general estos profesionales generan ciertos materiales, documentos u objetos de aprendizaje tales como ensayos en un procesador de textos, desarrollo de un problema estadístico en una hoja electrónica y lo mismo con la presentación de diapositivas. Posteriormente llega al aula y conecta su equipo de cómputo a un cártel y realiza la exposición del tema con la ventaja que ahorra tiempo al no tener que escribir o desarrollar la información y aprovecha el tiempo en explicar los conceptos. En algunos casos dependiendo de la estrategia del docente los alumnos deben copiar dicha información o a manera de apoyo se les distribuye los archivos digitales de diversas formas desde una impresión de las diapositivas hasta el envío de estas por correo electrónico. Por otro lado el docente intercambia documentos y tareas por medio de su cuenta de correo electrónico y es cuando suelen surgir una serie de problemas los cuales se describen más adelante pero el punto principal es que se complica la administración de esta información.

Innovación docente en ciencias sociales, jurídicas y otras disciplinas con contenido normativo Carlos María López Espadafor, 2021-03-03 En definitiva la pandemia nos ha hecho enfrentar como docentes a un nuevo reto como es la docencia virtual sin perder la calidad de una enseñanza innovadora. Como se ha argumentado a través de esta experiencia que planteamos se ha podido conseguir cumplir con los objetivos marcados utilizando las herramientas TIC reinventándonos planificando y llevando a cabo las actividades planificadas con un gran esfuerzo para conseguir motivar al alumnado y no morirnos en el intento hablando con una pantalla.
