United States. Patent Office,1947 Brick Architecture Craft in Nineteenth-Century South India Priya Joseph,2025-03-18

This book explores brick architecture of the nineteenth century in South India through the lens of tectonics and materiality The book is a diachronically elaborated history of brick architecture especially analysing the hybridity due to the indigenous and colonial intersections of nineteenth century India It offers a decolonial reading of architecture through meticulous measured drawings as a tool and presents an argument for reading buildings as archives South India has thousands of dilapidated buildings which may be erased due to neglect lax laws and ignorance The book exposes the tectonics fixing material choices socio political circumstances of this architecture in brick This method of analysing the dilapidated buildings as an archive of construction forefronts the makers and the agency of the local craftspeople rather than an Anglo centric gaze Brick buildings such as the extravagantly ornamental and structurally rich Chatrams of Thanjavur Rosary Church Hassan and Fort School Bengaluru are some of the many cases elaborated in the book The book connects the history of brick to its many contemporary challenges and manifestations The book is intended for students and scholars of architecture history material culture colonial studies and the Global South as well as anyone interested in brick as material for architecture
