### Reference list

The full details of all the sources you have cited in your work, listed at the end of your assignment, in alphabetical order.

## Formatting citations

For most sources, the only information you need when citing within the text of your work is the author's surname and the year of publication.

- In the absence of an author's name use the name of the organisation instead.
- If there is no date state (no date) in place of the year
- Provide the page number when using a direct quote. It may also be useful to include a page number for a paraphrase, to direct the reader to a particular part of the source you are referring to

### Examples

A source with two authors	{Pritchard and Burton, 2018}
