Based on student recollection, [NEET MDS 2023](#) exam paper analysis is currently available. The analysis, it should be mentioned, is based on the responses of students who took the test on March 1. Applicants were asked a series of questions, including the general level of difficulty, questions from a specific topic, topic-wise weighting, predicted cutoff, etc., and the analysis is based on those questions. The overall level of difficulty was moderate, according to the pupils. Most of the questions were clinical in nature, long, and time-consuming. Medical and pharmaceuticals were the two subjects that generated the most questions.

Analysis of the NEET MDS question paper from last year.
