James Bidlack,Kingsley Stern,2007-03-30 This laboratory manual assumes no previous knowledge of the biological sciences
on the part of the student It is designed for use in a one semester or one quarter introductory course in plant biology and
shorter introductory botany courses open to both nonmajors and majors Both the principles of biology and the scientific
method are introduced using plants as illustrations The exercises demonstrate the underlying unity of all living organisms at
the cellular level The manual is designed so that students can work more or less independently Instructors are free to require
different drawings or other assignments and may also omit some of those suggested within each exercise Students are
encouraged to read the laboratory exercise before coming to class Laboratory preparation quizzes are provided at the end of
each exercise Answers to the laboratory preparation quizzes are discernible within the particular exercises and should not
require checking other sources Each exercise includes suggested learning goals and exercise review questions Answers to
