Lenin, Trotsky and the Theory of the Permanent Revolution John Peter Roberts, 2014 Today yet again from Latin America to Nepal in India and the Middle East the question of which strategy the masses should adopt to take control of their own lives is being posed Without exception the leaders of the mass workers parties urge class collaboration as the way forward Actively supported by the national Communist Parties and even Maoist guerrilla groups a petty bourgeois amalgam proposes collaboration with the so called national bourgeoisie as the only path to national independence and democracy In the century since the Russian Revolution the first modern popular revolution to succeed in throwing out the imperialists much time and effort has been spent especially by the former Soviet bureaucracy in neutering Lenin praising him while tearing out the revolutionary heart of his theories This book demonstrates that the Russian Revolution a model for a victorious popular revolution in a semi colonial country in the era of imperialism required not a bourgeois democratic but a socialist revolution for the people to take power The old regime had to be destroyed and the state and governmental power seized by the working classes before it was possible to achieve national independence and carry through any meaningful agrarian reform for the benefit of the peasantry Lenin s close collaborator in October 1917 was Leon Trotsky and the success of that revolution was due to the combination of the discipline and organisation of Lenin s Bolshevik Party and Trotsky s political theory of the permanent revolution This book goes back to basics critically analysing and comparing Lenin s and Trotsky s own writings which are cited in their source and inspiration the Russian Revolution of 1905 It is shown that Lenin in October 1917 adopted the perspectives of Permanent Revolution that to finally rid Russia of autocracy and legitimise the peasants seizure of the land the Russian Revolution required the introduction of the dictatorship of the proletariat and the first steps towards the collectivisation of the means of production Those who attack the theory of Permanent Revolution never challenge the correctness of its basic concept that the international socialist revolution could begin in semi feudal Russia Instead in the guise of anti Trotskyism they deny the validity of Lenin s struggle for a socialist revolution in October 1917 *The Permanent Revolution & Results and Prospects* Leon Trotsky, 2005 The Permanent Revolution Results And Prospects Contains Leon Trotsky S Original Theory Of Permanent Revolution And Its Later Elucidation The Theory Which Can Be Traced Back To Karl Marx Was Developed By Trotsky About A Century Ago It Helped To Explain The Socialist Revolution In The Then Backward Russia And Enriched The Theoretical Arsenal Of Revolutionary Marxism However It Became During The So Called Stalin Era An Anathema And Its Theoretician Trotsky The Co Leader Of The Russian Proletariat Along With Lenin During The October Revolution And The Legendry Creator Of The Red Army Was Driven Away From His Own Land He Was Hounded Out From Country To County And Ultimately Brutally Assassinated In Mexico In 1940 By A Representative Of Stalin S Death Squads This New Edition Of The Book Published From India Would Be Of Immense Use To Activists Researchers And Students Of This Country And Abroad It Would Fulfil A Long Standing Demand Created Due To Unavailability Of The Book In

Trotsky's conception of Permanent Revolution is based on his understanding drawing on the work of fellow Russian Alexander Parvus that a Marxist analysis of events began with the international level of development both economic and social National peculiarities are only an expression of the contradictions in the world system According to this perspective the tasks of the Bourgeois Democratic Revolution could not be achieved by the bourgeoisie itself in a reactionary period of world capitalism The situation in the backward and colonial countries particularly Russia bore this out This conception was first developed in the essays later collected in his book 1905 and in his essay Results and Prospects and later developed in his 1929 book The Permanent Revolution The basic idea of Trotsky's theory is that in Russia the bourgeoisie would not carry out a thorough revolution which would institute political democracy and solve the land question These measures were assumed to be essential to develop Russia economically Therefore it was argued the future revolution must be led by the proletariat who would not only carry through the tasks of the Bourgeois Democratic Revolution but would commence a struggle to surpass the bourgeois democratic revolution Trotsky's theory was developed in opposition to the Social Democratic theory that undeveloped countries must pass through two distinct revolutions First the Bourgeois Democratic Revolution which socialists would assist and at a later stage the Socialist Revolution with an evolutionary period of capitalist development separating those stages This is often referred to as the Theory of Stages the Two Stage Theory or Stagism     *The Permanent Revolution and Results and Prospects* Leon Trotsky,2020-05-05 Trotsky's theory of the permanent revolution is one of the most important additions to Marxism In 1904 he alone put forward that the Russian workers could come to power before the workers of the West a theory confirmed by October 1917     October Readings: The Development of the Concept of Permanent Revolution Vladimir Ilyich Lenin,Leon Davidovich Trotsky,2010-10 The Russian revolution in October 1917 gave the workers soldiers and peasants soviets full state power It swept away the bourgeois state Subsequent successful seizures of power in the name of the workers have involved either peasant armies led by working class political nuclei or disastrously the occupation of countries by the forces of the Russian workers state The bureaucratic leaders of European workers thwarted the spread of the revolution The isolated Stalinist bureaucracy produced a consolatory myth that Russia did not need such foreign victories because it would achieve Socialism in one Country To defy this myth this book brings together documents by Marx Engels Lenin and Trotsky illustrating the real history of the strategy that won the Russian revolution and can win future working class seizures of power Inside readers will find Marx and Engels Address to the

Day, Daniel Gaido, 2009-02-23 The theory of Permanent Revolution has been associated with Leon Trotsky for more than a century since the first Russian Revolution in 1905 Trotsky was the most brilliant proponent of Permanent Revolution but by no means its sole author The documents in this volume most of them translated into English for the first time demonstrate that Trotsky was one of several participants in a debate from 1903-7 that involved numerous leading figures of Russian and European Marxism including Karl Kautsky Rosa Luxemburg Franz Mehring Parvus and David Ryazanov This volume reassembles that debate assesses it with reference to Marx and Engels and provides new evidence for interpreting the formative years of Russian revolutionary Marxism      *The Age of Permanent Revolution* Leon Trotsky, Isaac Deutscher, 1964 0051 For further reading of Trotsky's works pages 366-367      **Revolutionary Democracy** Soma Marik, 2018-03-09 In this wide ranging and insightful work Soma Marik defends the legacy of the Bolshevik Revolution arguing against many of its detractors that the early communist regime was centrally concerned with both the liberation of women and the expansion of democracy Soma Marik teaches Women's Studies and History at Jadavpur University      *The Collected Works. Illustrated* Leon Trotsky, 2021-09-09 Leon Trotsky was a Ukrainian Russian Marxist revolutionary political theorist and politician Ideologically a communist he developed a variant of Marxism which has become known as Trotskyism His politics differed from some aspects from those of Stalin or Mao Zedong most importantly in his rejection of the theory of Socialism in one country and his declaring of the need for an international permanent revolution This book contains Trotsky on Lenin My Life The Revolution Betrayed The Bolsheviks and World Peace and others 1 My Life 2 The Revolution Betrayed 3 Our Revolution Essays on Working Class and International Revolution 1904-1917 4 Dictatorship vs Democracy 5 From October to Brest Litovsk 6 Lenin 7 Results and Prospects 8 The Permanent Revolution 9 Literature and Revolution 10 The Bolsheviks and World Peace      Collected Works of V.I.
