

You'll probably never need all of our camera.

The Minolta SR-T 101 is a camera—and then it's much more than a camera. Put it all together and it becomes the most versatile system of 35mm through-the-lens metering photography ever designed. But you probably won't need all of it unless you happen to have big photographic ambitions. For instance, you won't need our 16mm F2.8 fisheye Rokkor Lens unless you're interested in photographic panoramas much wider than the human eye can see. And our super-telephoto lenses won't interest you unless you get a thrill out of getting down on the field for sporting events. And you won't want our accessories for close-up photography unless you want to see how insects really live. Now you can choose from more than 25 Rokkor Lenses and about 100 other accessories—all interchangeable with the SR-T 101. And the camera itself is the only one in the world with Contrast Light Compensator exposure measuring. And control-integrated viewfinder for incomparable ease-of-handling. You might not need the whole camera, of course, but if you're thinking creatively about photography, isn't it nice to know it's available?
