Larson,2008 As the market leading textbook on the subject Project Management The Managerial Process 4e is distinguished by its balanced treatment of both the technical and behavioral issues in project management as well as by its coverage of a broad range of industries to which project management principles can be applied It focuses on how project management is integral to the organization as a whole The 4th edition reflects the latest changes found in the practice Other texts discuss the topics covered in this text but they do not view oversight as the project manager s operating environment as does Gray Larson Introductory Management Science ,1998 *Department of Homeland Security Bioterrorism Risk Assessment* National Research Council,Division on Earth and Life Studies,Board on Life Sciences,Division on Engineering and Physical Sciences,Board on Mathematical Sciences and Their Applications,Committee on Methodological Improvements to the Department of Homeland Security's Biological Agent Risk Analysis,2009-01-03 The mission of Department of Homeland Security Bioterrorism Risk Assessment A Call for Change the book published in December 2008 is to independently and scientifically review the methodology that led to the 2006 Department of Homeland Security report Bioterrorism Risk Assessment BTRA and provide a foundation for future updates This book identifies a number of fundamental concerns with the BTRA of 2006 ranging from mathematical and statistical mistakes that have corrupted results to unnecessarily complicated probability models and models with fidelity far exceeding existing data to more basic questions about how terrorist behavior should be modeled

Rather than merely criticizing what was done in the BTRA of 2006 this new NRC book consults outside experts and collects a number of proposed alternatives that could improve DHS's ability to assess potential terrorist behavior as a key element of risk informed decision making and it explains these alternatives in the specific context of the BTRA and the bioterrorism threat

Statistics for Management and Economics Gerald Keller, Brian Warrack, 1999 This is the abbreviated edition of *Statistics for Management and Economics* The authors systematically teach students what statisticians do solve problems focusing on the relationship between the type of problem the type of data involved the appropriate technique and interpreting results

Statistical Thinking for Managers David K. Hildebrand, Lyman Ott, 1998 Focusing on the analysis of data using modern statistical and spreadsheet software Hildebrand and Ott emphasize making sense of data and discuss not only how a statistical method is applied but why and why not Throughout the book the authors integrate computer use into the development of statistical concepts emphasizing the value of looking at data to make sure the right questions are being asked The real life applications and examples throughout challenge students to think like managers The case that concludes every chapter asks students to deal with a relatively unstructured situation and to explain the statistical reasoning in nontechnical language Modern statistical methods including resampling and bootstrapping are included In addition the authors emphasize quality control and improvement throughout the book and include three full chapters on regression and correlation methods
