

Medical School Personal Statement

When I was six years old, I lost my father in a bicycle accident. He was in a coma for four days before he passed away. The images of my father—barely alive, barely recognizable, and connected to multiple machines—are among my earliest memories of medicine and hospitals. Too young to understand the complications of his accident and the irreversible brain damage he suffered, I was a child who thought that medicine had failed. I associated medicine with loss. Fortunately, my grandfather, uncle, and stepfather—all physicians—introduced me to another side of health care, and together they inspired me to seek out other experiences in the medical field. As the years passed, my thoughts of medicine evolved from those ominous memories associated with my father's death to the idea of a respected profession I aspire to join.

I was twelve when I first accompanied my uncle, an interventional cardiologist, to the catheterization lab. I observed an angioplasty from a viewing window and watched my uncle unblock a coronary artery using a balloon and a stent. That experience sparked a curiosity to learn more about medicine. Watching my uncle alleviate a health problem with his skill and quick decision-making helped me understand the great responsibility of being a physician and the great satisfaction and sense of reward inherent in the profession. The fast pace of the hospital excited me, and I admired my uncle because he worked in a profession dedicated to healing and saving lives.

Among other shadowing experiences, I dedicated weekend and summer hours to working with and shadowing my stepfather, a urologist, in his private practice. I greeted patients, collected and tested urine samples, and performed clerical duties. I also observed patient visits and in-office procedures. One day I sat in on an office visit when my stepfather first diagnosed a patient with prostate cancer. After hearing the word cancer, the patient's demeanor changed. His hands and knees became tremulous and his complexion flushed. Focusing on the patient, my stepfather educated him about the diagnosis, provided advice about treatment, and answered questions knowledgeably and empathetically. My stepfather did not sip the coffee on his desk or answer his phone. I witnessed the physical and emotional anguish associated with poor health and the care and compassion necessary to comfort a patient while delivering a shattering diagnosis. There was hope in the patient before he left the office; he smiled and thanked my stepfather profusely, trusting his professional solution to the bad news. The sincere concern and bedside manner I observed drew me closer to medicine, and I realized that I possess many qualities and skills essential to becoming a good physician. I am honest, empathetic, objective, a decisive decision maker, and I work well with others.

The Complete MD/PhD Applicant Guide Jonathan Sussman, Jordan Setayesh, Amitej Venapally, 2020-09-22 This book is a student reference guide book for the MD PhD application process It begins with an overview of the structure of a typical MD PhD program as well as student outcomes and career choices of MD PhD graduates Next is an outline of the academic and extracurricular prerequisites as well as the basic components of the application itself

The authors then address the factors that MD PhD students should consider when selecting schools to which to apply. Continuing to the main application, examples are provided of all the different essay types that MD PhD applicants will encounter along with comments on how to address the deliberately vague and abstract prompts while tailoring the responses to the combined degree program. Most uniquely included is a very detailed explanation of the many types of interviews that applicants will encounter and how to prepare for them by integrating extensive personal experience and first-hand discussions with MD PhD program leaders. Lastly, there will be a discussion on how to cope with the year-long timeline that constitutes this application process and provide guidance regarding properly responding to acceptances and waitlist offers. Written by a team of authors each experienced with the MD PhD application, this book aids the prospective applicant with navigating this challenging process.
