Tumultuous Politics of Scale Donald M. Nonini,Ida Susser,2020-01-23 Contemporary politics this book contends depend upon the turbulent struggles and strategies around scale Conflicts over scale can be seen as opaque class struggles Political projects whether from the ground up or representing corporate or state interests continually contest the scale at which authority is vested This volume looks at the way global corporations redefine the scale of power and how working class and other movements build alliances and cross scales to develop political blocs What injustices are perpetrated or more hopefully redressed in this process The book consisting of contributions from anthropologists geographers and cultural studies scholars explores theoretical issues around contested temporal and spatial scales and around variations in scale from the body to the global Part I focuses on bodies in motion entangled in battles over new boundaries and political coalitions and the ways in which migrants and refugees are disrupted by intersecting time scales Part II on the nation state addresses the shifting responsibilities assigned by law at different historical moments and the impact of global energy trade on national austerity policies Part III on rescaling sovereignty discusses the misleading media discourse on Brexit and reconstructs the class bases of the move to the Right in Eastern Europe that threaten the EU Part IV on the histories of changing scales of movements revisits historical debates on uneven and combined development and sets out the transnational labor movements of the eighteenth and nineteenth century Atlantic which prefigure contemporary struggles of labor in a world which is still one of uneven and combined capitalist development Finally Part V considers ways in which some social movements are constrained by scale while others reshape parties and traverse nations in their efforts to build class alliances and political blocs A Global Idea Mayssoun Sukarieh,2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere *Brexit and After* Kumiko Haba,Martin Holland,2020-12-12 This book makes a new departure from others on the subject Not only does it analyze Brexit from the domestic point of view in the UK democracy social analysis and construction of new institutionalization with the EU it extends the analysis externally and reconsiders the EU and UK relationship with Asia and

the implications for international relations and a new world order From this foundation this book presents a broad and diverse spectrum of views concerning Brexit and the EU For these reasons it serves as an original and excellent textbook for undergraduate and graduate students as well as for researchers of the EU and international relations Contributions to this volume are from the European Union Studies Association EUSA Asia Pacific Tokyo Conference and affiliated conferences at the following universities between 2017 19 Aoyama Gakuin University Tokyo Taiwan National University Taipei and Fudan University Shanghai Almost all of the authors have engaged in interdisciplinary research on the EU are members of the EUSA Asia Pacific and have made public presentations on Brexit and how it relates to the EU Asia international relations economics and institutions Therefore this book presents various aspects of Brexit and its aftermath from the perspectives of the disciplines of political science economics and international relations in its analysis of the UK the EU Asia and the future world order The EUSA Presidents and executive committee members participated in the Asia Pacific Conference postgraduate student workshops were organized and their presentations moderated thereby guaranteeing both the quality of the contributions to this book as well as encouraging young talented scholars to write about Brexit and the EU While many books on Brexit have been published this book offers many new and perspectives that provide suggestions for possible solutions to the problems facing the UK and the EU after Brexit **State against Civil Society** Cameron Ross,2017-10-02

Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies

Research Libraries,1979 **The Meritocracy Trap** Daniel Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people General Catalogue of Printed Books to 1955 British Museum.
