Moralizing the Market Yves-Marie Péréon,2018-03 In the late 1960s France attempted a complete overhaul of its financial regulations without being forced to do so by a stock market crash or the collapse of its banking system Out of pure political expediency Gaullist reformers seized the opportunity offered by a minor insider trading case to establish the Commission des Opérations de Bourse COB an independent commission in charge of regulating the securities market Even more surprisingly these staunch defenders of national sovereignty drew their inspiration from an American model the Securities and Exchange Commission Rather than a comparative study of securities regulation in France and the United States the book is an investigation of the dynamics of policy transfer in the field of securities regulation Along the way it reveals a great deal about French and American perceptions of morality and capitalism but also more generally about the exercise of political power in modern democracies the interaction between business and government and the mechanisms of institutional innovation **The Papers of James Madison** James Madison,1984 The Papers of James Madison project housed at the University of Virginia was established in 1956 to publish annotated volumes of the correspondence and writings of James Madison the Virginia statesman most often remembered for his public service as Father of the Constitution and as fourth president of the United States The published volumes provide accurate texts of Madison's incoming and outgoing correspondence informative notes on textual and subject matters and comprehensive indexes They are incomparably rich sources for students of Madison's life and valuable research tools for those interested in the general history of the period in which Madison lived 1751-1836 The project has collected more than 27 000 copies of documents related to Madison's life including letters essays notes diaries account books ledgers wills legal papers and inventories The project serves the public by translating into print these decaying and often nearly illegible manuscripts thereby preserving them for future generations and making them easier to use The published volumes also make the contents of Madison-related documents the originals of which are housed in some 250 archives worldwide easily accessible to libraries and interested individuals anywhere books travel The Presidential Series covering the years 1809 to early 1817 centers largely on Madison's record as commander in chief during the War of 1812 the first full scale conflict to be waged under the U S Constitution of 1787 Madison's correspondence as president deals with a particularly wide range of concerns national politics international diplomacy and war Indian affairs the construction of the nation's capital even petitions from ordinary citizens for charity and mercy to which Madison responded Publisher **Current Law Index** ,2007 United States Shipping Board and

Emergency Fleet Corporation United States. Congress. House. Accountancy , 1980 **Chicago Commerce** , 1918 **Special Operations Forces** John M. Collins, 1994-11 In this volume John Collins speaks with the authority of one who was literally present at the birth of the low intensity conflict era His long term intimate and direct contact with the esoteric world of special operations has few parallels Their roots go back in time and history considerably farther but today s Special Operations Forces are largely products of the past three decades Their development has been in response to the pressures of world wide situations perceived to bear upon or which actually do affect American strategic interests The use of raw military power may not provide solutions to the complex problems involved and may even be counter productive Special Operations forces uniquely suited to fill the quasi military gap require the highest degree of professional competence in the application of the classical principles of war This is a big order It is difficult in a few words to pay John Collins the tribute he deserves for continuing efforts to educate both the Congress and the U S Armed Forces concerning the capabilities and limitations of special operations and the forces they involve This latest addition to his carefully researched studies combines history philosophy factual data and reference materials in a single document that should be on the desks of civilian and military leaders whose responsibilities relate in any way to special operations **The Commercial and Financial Chronicle** , 1914 *Prophets of Regulation* Thomas K. McCraw, 1986-10-15 There is properly no history only biography Emerson remarked and in this ingenious book Thomas McGraw unfolds the history of four powerful men Charles Francis Adams Louis D Brandeis James M Landis and Alfred E Kahn The absorbing stories he tells make this a book that will appeal across a wide spectrum of academic disciplines and to all readers interested in history biography and Americana **Army and Navy Register** , 1926 *New Serial Titles* , 1989 A union list of serials commencing publication after Dec 31 1949
