*Monetary Policy after the Great Recession* Arkadiusz Sieroń, 2020-11-09 Walter Bagehot noticed once that John Bull can stand many things but he cannot stand two per cent Well for several years he has had to stand interest rates well below that in some countries even below zero However despite this sacrifice the economic recovery from the Great Recession has been disappointingly weak This book s aim is to answer this question The central thesis of the book is that the standard understanding of the monetary transmission mechanism is flawed That understanding adopts erroneous assumptions such as that low interest rates always stimulate economic growth by boosting the credit supply investment and consumption and does not fully take into account several unintended channels of monetary policy such as risk taking high level of debt or zombification of the economy In other words the effectiveness of monetary policy is limited during economic downturns accompanied by the debt overhang and the balance sheet recession and generates negative effects which can make the policy counterproductive The author provides a thorough analysis of the issues related to the interest rates in the conduct of monetary policy such as the risk taking channel of monetary policy the portfolio balance channel and the wealth effect zombie firms in the economy the misallocation of resources as well as the neutral interest rate targeting and the difference between the neutral and natural interest rate and the negative interest rate policy The book is written in an accessible and engaging manner and will be a valuable resource for scholars of monetary economics as well as readers interested in unconventional monetary policy

*India's Approach to Border Management* Pushpita Das, 2022-12-29 This book attempts to provide a comprehensive understanding of the circumstances which have shaped India s approach towards its international borders and the framework it has developed to better manage its borders The book argues that persistence of various cross border threats and challenges and an absence of robust intra regional trade among its neighbouring countries forced India to employ a security centric and unilateral approach to border management with emphasis on hardening the borders to cross border trade and travel and keeping the border areas underdeveloped to act as a buffer against external conventional threats Besides discussing the threats and challenges that India faces along the borders

the book aims to develop an understanding of India's border management practices by analysing various programmes and initiatives such as the raising of border guarding forces building of physical and electronic fences the establishment of modern facilities for smoothening legitimate cross border travel the development of the border areas through special programmes and increasing trade and connectivity as well as other cooperative bilateral mechanisms Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan      **The State of African Cities, 2014** United Nations Human Settlements Programme, 2013 Nairobi UN Habitat c2014 9789211325980      Dictionary Catalog of the Giannini Foundation of Agricultural Economics Library, University of California, Berkeley Giannini Foundation of Agricultural Economics. Economic Commission for Africa, 2014 For millions of Africans growth is yet to translate into jobs and better living conditions Africa's largely commodity driven growth has not been matched by the much needed structural change that can lead to economic transformation employment and reduced poverty Market failures necessitate industrial policy interventions Yet in the absence of the right processes and institutions good industrial policies will fail Indeed weak institutions and poor policy design have hindered industrial policy This report gives a framework for getting the policy process right to foster industrialization It uses 11 country case studies to assess the critical ingredients for spurring industrialization innovative institutions effective processes and flexible mechanisms and structural transformation      **Guide to Microforms in Print**, 1989      Public Policy, 2017      Arab Middle Class, 2014 The present report studies the Arab middle class an important social group that is relatively little understood despite the fundamental role it has played in shaping the economic and social development outcomes in the Arab region This report contributes to the ongoing debate about factors that led to the Arab uprisings and the difficult transitions to democracy that followed the departure of long standing dictators by marking elements influencing middle class allegiances specifically those that weakened their well established alliances with ruling regimes The report is motivated by the conviction on the basis of past development experiences that a new Arab development model can only succeed if the middle class plays

a lead role in designing and implementing processes of economic transformation and political transition Studying the middle class is therefore crucial to interpreting the past understanding the present and reading the potential future development prospects of the Arab region This report introduces three novel approaches aimed at charting a path for sustaining empowering and enlarging the middle class The first is related to the measurement of the middle class based on a definition that takes into account both the quantity and quality of their consumption expenditure The second relates to the profiling of the Arab middle class using variables such as education employment and mobility in addition to multidimensional poverty The third novel approach lies in using these results to provide a narrative of the socioeconomic context of the decade leading up to the uprisings from a middle class perspective The report concludes that the empowerment of the Arab middle class could pave a way out of the current development and governance debacle towards an Arab developmental State Publisher s description     *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library.
