A Usable Collection Jan Lucassen, Aad Blok, Huub Sanders, 2025-10-01 Established in 1935 the International Institute of Social History IISH is one of the world's leading research institutes focused on social history and holds one of the richest collections in the field This volume brings together thirty five essays in honor of the IISH's longtime director Jaap Kloosterman who built the institute into a world leader in the field *The Changing Practices of International Law* Tanja Aalberts, Thomas Gammeltoft-Hansen, 2018-04-05 With more than 158 000 treaties and some 125 judicial organisations international law has become an inescapable factor in world politics since the Second World War In recent years however international law has also been increasingly challenged as states are voicing concerns that it is producing unintended effects and accuse international courts of judicial activism This book provides an important corrective to existing theories of international law by focusing on how states respond to increased legalisation and rely on legal expertise to manoeuvre within and against international law Through a number of case studies covering a wide range of topical issues such as surveillance environmental regulation migration and foreign investments the book argues that the expansion and increased institutionalisation of international law itself have created the structural premise for this type of politics of international law More international law paradoxically increases states political room of manoeuvre in world society Core-Periphery Patterns across the European Union Adelaide Duarte, Gabriela Carmen Pascariu, 2017-08-25 In this new work Pascariu and Duarte along with an international group of acclaimed scholars delve into key challenges currently facing the European Union They Analyze the effect of peripherality across the EU regions which will be of great interest to those countries and regions facing a process of integration Russia's Arctic Strategies and the Future of the Far North Marlene Laruelle, 2015-01-28 This book offers the first comprehensive examination of Russia's Arctic strategy ranging from climate change issues and territorial disputes to energy policy and domestic challenges As the receding polar ice increases the accessibility of the Arctic region rival powers have been manoeuvring for geopolitical and resource security Geographically Russia controls half of the Arctic coastline 40 percent of the land area beyond the Circumpolar North and three quarters of the Arctic population In total the sea and land surface area of the Russian Arctic is about 6 million square kilometres Economically as much as 20 percent of Russia's GDP and its total exports is generated north of the Arctic Circle In terms of resources about 95 percent of its gas 75 percent of its oil 96 percent of its platinum 90 percent of its nickel and cobalt and 60 percent of its copper reserves are found in Arctic and Sub Arctic regions Add to this the riches of the continental shelf seabed and waters ranging from rare earth minerals to fish stocks After a spike of aggressive rhetoric when Russia planted its flag in the Arctic seabed in 2007 Moscow has attempted to strengthen its position as a key factor in developing an international consensus concerning a region where its relative advantages are manifest despite its diminishing military technological and human capacities **The State of African Cities, 2014** United Nations Human Settlements

Programme,2013 Nairobi UN Habitat c2014 9789211325980 The State of African Cities, 2014 United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change **Documents Communicated to the Senate and House of Representatives** ,1895 *Annual Report* Michigan.
