Environmental Humanities of Extraction in Africa James Ogude, Tafadzwa Mushonga, 2022-08-17 This book brings together perspectives on resource exploitation to expose the continued environmental and socio political concerns in post colonial Africa The continent is host to a myriad of environmental issues largely resulting from its rich diversity of natural resources that have been historically subjected to exploitation Colonial patterns of resource use and capital accumulation continue unabated making environmental and related socio political problems a dominant feature of African economies The book pursues the manifestation of these problems through four themes environmental justice violent capitalocenes indigenous knowledge and climate change The editors locate the book within the broad fields of political ecology and environmental geopolitics to highlight the intricate geographies of resource exploitation across Africa It uniquely focuses on the socio political and geopolitical dynamics associated with the exploitation of Africa's natural resources and its people The case studies from different parts of Africa tell a compelling story of resource exploitation related issues of environmental degradation in a

Wildlife Crime Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2012-10-18 Wildlife legislation has become so complex that prosecutions fail and even specialist enforcement professionals struggle to implement it effectively Hundreds of birds of prey have been deliberately poisoned with substances such as carbofuran that have no legal use and the Government could easily make possession an offence The lack of sentencing guidelines on wildlife offences means that some offenders are being neither punished nor deterred in the courts The CPS is also failing to train its prosecutors to handle complex wildlife cases Furthermore the inflexible implementation in UK law of international agreements covering the trafficking of endangered species squanders limited resources The Government has maintained funding for specialist wildlife crime investigation and enforcement but this is provided on an ad hoc basis reducing operational effectiveness Funding provided to monitor wildlife crime on the internet was too short term to attract a suitably qualified individual to fill the post In 2004 the Committee called for a new database to record all wildlife crime but this has still not been introduced Internationally this report also examines how the rhino tiger and elephant are being driven to extinction by growing demand for illegal wildlife products in south east Asia and China The Government needs to exert robust diplomatic pressure in favour of the development and enforcement of wildlife law at the next CITES meeting in March 2013 In particular the Government should focus attention on the damaging effect of one off sales of impounded ivory which has been found to actually fuel demand for ivory products and seek an unequivocal international ban on all forms of ivory
