

Joint Admission Board Revision 2015

S Ashworth

Joint Admission Board Revision 2015:

Equality in Kenya's 2010 Constitution Victoria Miyandazi, 2021-02-25 This book makes a significant contribution to the ongoing global conversations on the various understandings of equality. It illuminates the many ways in which diverse equality guarantees clash or are interrelated. It also sets out principled approaches on how they can be coherently interpreted to address the myriad inequalities in Kenya. Taking a comparative approach, the book considers how other jurisdictions including the United States, United Kingdom, Canada, South Africa, India, and Botswana have approached the conceptualisation, interpretation, and application of various equality concepts. The book focuses on important issues such as transformative constitutionalism in relation to the interpretation of Kenya's 2010 Constitution, expanding the list of enumerated grounds for non-discrimination, affirmative action, accommodating religious and cultural diversity versus gender equality, the interrelation between socio-economic rights and status-based equality.

Gender Inequalities Esra Ozdenerol, 2021-02-22 Gender inequality is entrenched in the cultural, political, and market systems that operate at household, community, and national levels. Global changes in market access, climatic conditions, and the availability of natural resources intensify disparities in income, assets, and in power among genders. This book aims to explain these gender dynamics at macro and micro levels through GIS and spatial analysis. The first part of the book introduces key concepts of how to integrate GIS in gender inequality research. The second part presents more in-depth case studies carefully selected such as mapping gender-based violence, gender inequality in the labor force, refugee mapping, etc.

Pediatric Neurosurgery Board Review Nir Shimony, George Jallo, 2023-05-06 This specialized textbook will be dedicated to the various disease topics of pediatric neurosurgery and management strategies. The text will cover the different aspects of the field of pediatric neurosurgery in a unique way by giving state-of-the-art up-to-date synopsis with references to recent publications. More specifically, the whole book is dedicated to a comprehensive discussion of brainstem tumors and other lesions. It will be composed of 20 chapters. The various chapters will start from updates regarding the development of the nervous system and the clinical differences in assessing the infant or a child in comparison to the adult patient. The book then will focus on various pathologies starting with hydrocephalus, pediatric brain and spine tumors, congenital malformation, spasticity, epilepsy, and more. The proposed textbook will be enriched with diagnostic and surgical images and illustrations that cover all types of pediatric neurosurgery pathologies with an emphasis on evidence-based data that reflects the controversies and possible solutions. The main structure of each chapter will include a short synopsis of the topic at hand, questions and answers that will inspire the reader for better understanding, learning objectives, and key references for further reading. Written by experts in the field, Pediatric Neurosurgery Board Review serves as a valuable resource for neurosurgery residents and fellows studying for their neurosurgery exams as well as an educational material for neurosurgery specialists after graduation by discussing pediatric neurosurgery in a more convenient way to review and understand key information in this field.

Cardiology Board Review Ramdas G. Pai, Padmini Varadarajan, 2023-03-10 Multiple choice question and answer book for cardiologists at all levels now updated to include 100 new questions covering additional topics *Cardiology Board Review Second Edition* is a multiple choice question and answer study aid that is written for the primary purpose of helping candidates prepare for the American Board of Internal Medicine ABIM subspecialty certification The questions address all areas of cardiology some of which include physical examination ECG section with high resolution images non invasive and invasive imaging myocardial diseases and more Each of the 1 400 questions is followed by four answers to choose from and the discussions address not only the rationale behind picking the right choice but also fills in information around the topic so that important key concepts are clearly laid out This helps candidates to prepare for the test while also developing a clear understanding of various aspects of cardiology including diagnosis and management Written by two highly experienced authors in the field of healthcare *Cardiology Board Review Second Edition* covers topics such as History and physical examinations electrocardiography chest x rays in cardiology stress testing and risk stratification of asymptomatic subjects and echocardiography Cardiac magnetic resonance imaging cardiac computed tomography cardiac catheterization acute coronary syndromes and chronic coronary artery disease Heart failure transplant left ventricular assist devices pulmonary hypertension cardiomyopathies hypertension and diabetes mellitus Lipids valvular heart disease adult congenital heart disease pericardial diseases aortic diseases and cardiac arrhythmias Pacemakers and defibrillators cardiac masses systemic disorders affecting the heart and heart disease and pregnancy Providing comprehensive coverage of all relevant subjects and offering the easy to understand why behind the answer to each question this second edition of *Cardiology Board Review* is an essential study resource for fellows in training practicing cardiologists and those preparing for ABIM subspecialty board in cardiology
