V. Gipps,1995 The intuition or evidence of the title is a theme which runs through the book Prior to National Assessment teachers judgements about pupils were largely intuitive National Assessment has brought about changes in some teachers practice resulting in assessments now being based more firmly on evidence Other teachers however still prefer to assess intuitively The changes in government policy and the demands for testing and publication to raise standard also seem to be based on intuition rather than evidence However by the end of a three year study the authors evidence shows that a number of headteachers felt that standards of teaching had improved but not in the simplistic way envisaged by the government **The School Science Review** ,2001 Literacy in the Secondary School Maureen Lewis,David Wray,2014-02-25 First Published in 2000 Literacy is on the agenda in a big way in the United Kingdom The principal target of the National Literacy Strategy from 1997 till the middle of 1999 was the practice of teaching literacy in primary classrooms From 1999 however the target has broadened and now clearly encompasses secondary school teaching as well Very few secondary teachers even of English have received any substantial training in literacy work and if they are to respond in the best way possible to current initiatives they need help help of a very practical nature which enables them to introduce more effective attention to literacy into their subject teaching The aim of this book is to provide an account of the good practice encountered by the authors and offer some valuable practical support to secondary schools and teachers
