

annova

1

Rotor

Las palas se mueven por acción del viento transmitiendo dicho movimiento al rotor. Así transforma la energía cinética del viento en energía mecánica de giro. La velocidad de giro oscila entre 10 y 30 vueltas por minuto.

2

Multiplicador

El eje de baja velocidad mueve un sistema de discos engranados entre sí que consigue multiplicar por cincuenta el número de vueltas, llegando así hasta las 1.500 revoluciones por minuto.

3

Control

Una serie de sensores (velocidad y dirección de viento, controladores de potencia, etc.) recogen y envían los datos a través de una línea de comunicaciones. En el centro de control se registran los datos, pudiendo así controlar y ordenar al aerogenerador de forma remota.

Regula la entrada de ventilación

Se encuentran en las góndolas los sensores de viento, velocidad, dirección, etc. que envían los datos a través de una línea de comunicaciones al centro de control remoto.

Viento
Anemómetro

GÓNDOLA

Palas

Las palas de los aerogeneradores modernos están fabricadas con un compuesto de poliestir y fibra de vidrio. Su diseño es similar al perfil de un ala de avión.

4

Orientación

Control de giro de la góndola para orientarla de la forma más eficiente en la dirección contraria al viento.

25-30 m

Banda

La torre

La góndola se sustenta sobre una torre formada por varias secciones de acero o de hormigón, unidas por medio de bridas atornilladas. A su vez, la torre se sostiene en una base de hormigón.

Dimensiones

5

Generador

La caja multiplicadora está unida con el generador eléctrico por un eje llamado de alta velocidad. El generador convierte la energía mecánica en energía eléctrica. Esta energía pasa por un transformador y se transmite a la red. Para evitar el calentamiento durante el proceso, se utilizan refrigeradores por aire o por agua. Si se necesita parar el trabajo del generador, un freno bloquea el giro del eje de alta velocidad.

Manual Para Fabricar Un Aerogenerador

Antonio Miravete de Marco

Manual Para Fabricar Un Aerogenerador:

As recognized, adventure as without difficulty as experience roughly lesson, amusement, as skillfully as conformity can be gotten by just checking out a book **Manual Para Fabricar Un Aerogenerador** plus it is not directly done, you could give a positive response even more roughly this life, almost the world.

We pay for you this proper as with ease as simple way to acquire those all. We provide Manual Para Fabricar Un Aerogenerador and numerous book collections from fictions to scientific research in any way. accompanied by them is this Manual Para Fabricar Un Aerogenerador that can be your partner.
