

MBA Capstone Project Description

Throughout your MBA program, you have worked to develop as a business professional and prepare to meet future challenges as a business leader. Your program culminates in the capstone project, which forms the primary focus of MBA-FPX5910, the final course you will take in the program. The capstone project is intended to provide you the opportunity to demonstrate your MBA program outcomes by:

- Planning and executing the strategic and tactical elements of a comprehensive project.
- Integrating and demonstrating the business leadership skills and techniques you have learned throughout the MBA program.
- Communicating your analysis and recommendations for a real organization both in written form and in a formal presentation.
- Completing your MBA program with an experience that reinforces and integrates what you have learned throughout your MBA program.

The following information outlines the requirements and work associated with the capstone project for MBA-FPX5910.

Capstone Project Examples

You have a wide variety of choice when it comes to choosing a capstone project that is personally interesting and rewarding to you. It is your responsibility to propose a capstone topic and scope that will allow you to demonstrate all of the MBA program outcomes.

Examples of project types that might be proposed to meet these requirements include, but are not limited to:

- A *strategic plan* developed for an organization to use that helps them solve a problem or take advantage of an opportunity.
- A *strategic analysis* conducted on a selected part or area of an organization.
- A *case study* developed on a selected part of or situation within an organization.
- An *intervention* developed to address an organizational issue; for example, a workshop or training activity. The intervention should be broad-based enough to demonstrate the program-level outcomes.
- A *consulting report* developed to analyze a problematic issue within an organization; the issue and analysis should be broad-based enough to demonstrate program-level outcomes.

You may propose other project types for the capstone project so long as you are able to identify how the proposed project satisfies the requirement of demonstrating the program-level outcomes. When choosing your project type and/or topic, keep in mind that it must result in recommendations, next steps, or some other type of actionable, evidence-based takeaways for your intended audience, user, or subject of the project.
