I understand that one of the large department stores also has its "own" SRT model for sale in its camera department! I haven't had the chance to examine each of the models but I'd guess that it is the same basic SRT-101 camera with a different model designation, standard lens, and miscellaneous features.

But what does this proliferation of models mean to you as a technician? It simply means that there are a lot of Minolta SRT models around and you are going to
