Medical Devices for Pharmacy and Other Healthcare Professions Ahmed Ibrahim Fathelrahman, Mohamed Izham Mohamed Ibrahim, Albert I. Wertheimer, 2021-12-29 Today more than ever the pharmacist is a full member of the health team and many of the pharmacist's patients are using a host of other devices from various specialty areas of medicine and surgery. Medical Devices for Pharmacy and Other Healthcare Professions presents a comprehensive review of most devices that pharmacists and pharmacy personnel encounter during practice. The devices covered are relevant to pharmacists working in various work settings from hospitals, community pharmacies and health insurance sector to regulatory bodies, academia and research institutes. Even if a pharmacist does not come across each of these devices on a regular basis, the book is a valuable reference source for those occasions when information is needed by a practitioner and for instructing interns and residents. The book discusses devices needed for special pharmaceutical services and purposes such as residential care homes and primary care based with GPs, pharmacy based smoking cessation services, pharmacy based anticoagulant services, pain management and terminal care, medication adherence and automation in hospital pharmacy. Additional features include: Provides information on devices regarding theory, indications and procedures concerning use, cautions and place in therapy. Assists pharmacists in understanding medical devices and instructing patients with the use of these devices. Focuses on providing the available evidence on effectiveness and cost effectiveness of devices and the latest information in the particular field. Other healthcare providers interested in medical devices or involved in patients care where medical devices represent part of the provided care would benefit from the book.
