Flight Into Darkness Tom Neil, 2006 Many World War Two fighter pilots have written their wartime biographies Tom Neil included but most of these accounts are tempered by 60 years of hindsight along with concern for the feelings of others Tom Neil decided that it was now time to tell the stories that previously he couldn't and came up with a unique approach By writing them in a short story format and modifying various aspects for both dramatic effect and also to protect the identities of the individuals involved he has produced a series of moving and fascinating stories the first four of which are published in *Flight into Darkness* Illustrated with over 30 specially commissioned pencil sketches by award winning aviation artist Mark Postlethwaite

The Bombing War Richard Overy, 2013-09-26 The ultimate history of the Blitz and bombing in the Second World War from Wolfson Prize winning historian and author Richard Overy The use of massive fleets of bombers to kill and terrorize civilians was an aspect of the Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities The Bombing War radically overhauls our understanding of the War It is the first book to examine seriously not just the most well known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author's masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss

Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian's art The Times It is unlikely

that a work of this scale scope and merit will be surpassed Times Higher Education What distinguishes Mr Overy's account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear-eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century The Dictators Hitler's Germany Stalin's Russia won both the Wolfson Prize for History and the Hessell Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia's War Interrogations The Battle of Britain and The Dictators He lives in London Thinks He's a Bird Ian Campbell,2022-01-11 A remarkable and powerful story of indomitable human spirit passion and courage In 1941 when Keith Watson a teenage postal clerk from country Queensland enlisted in the RAAF he had absolutely no idea what he was getting himself into The following four years were an adrenaline-filled ride of love loss mateship ambition courage and sacrifice all recorded in an intimate 800-page diary This is an account of how war tests character and puts the young on an accelerated path to maturity From childhood and his first inspirational flight to his emergence as an elite Pathfinder Force pilot Keith's story is compelling and tragic yet uplifting He confronts constant death and injury challenges authority learns to skipper a crew and finds his trademark humility running headlong into ego and ambition Keith's graphic accounts of Pathfinder missions bring a deepening sense of the relentless physical and psychological toll on the crews of Bomber Command Counterbalancing these experiences are Keith's relationships with wartime mates the woman who loved him and the UK families who sacrificed much on his behalf Based on material never before released *Thinks He's A Bird* is a stunning account of service sacrifice and two enduring and competing passions flying and Norah the love of Keith's life **The Motor**,1943 *Flypast*,2008 **The Lancaster Bomber Pocket Manual** Martin Robson,2017-12-14 The Avro Lancaster was the RAF's most famous and successful heavy bomber of the Second World War Used predominantly at night Lancs dropped 608 612 tons of bombs in 156 000 sorties in the period 1942-1945 Some of these missions were incredibly daring notably the dambusters raid of 617 Squadron on the Ruhr valley dams in May 1943 The success of such operations was testament both to the rugged reliable qualities of this amazing aircraft and the bravery and skill of the pilots navigators bombardiers flight engineers and gunners that crewed it They relied on their training and experience supplemented by various pamphlets and manuals that were produced throughout the war Supplemented with illustrative plans and diagrams this fascinating pocket manual provides a unique insight into the wartime operation of this famous aircraft **ACES HIGH MAGAZINE ISSUE 13 (Inglés)**, **The Hercules** Gordon A.
