Mt Kenya Intake 2015 Courses:

Lawyers in 21st-Century Societies Richard L Abel, Ole Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world's legal professions have undergone dramatic changes in the 30 years since publication of the landmark three volume *Lawyers in Society* which launched comparative sociological studies of lawyers. This is the first of two volumes in which scholars from a wide range of disciplines, countries and cultures document and analyse those changes. The present volume presents reports on 46 countries with broad coverage of North America, Western Europe, Latin America, Asia, Australia, North Africa and the Middle East, sub-Saharan Africa and former communist countries. These national reports address the impact of globalisation and neoliberalism on national legal professions, the relationship of lawyers and their professional associations to the state and tensions between state and citizenship, changes in lawyer demography, rapidly growing numbers and the profession's efforts to retain control, the entry of women and obstacles to full gender equality, ethnic diversity, legal education, the proliferation of institutions and pedagogic innovation, the regulation of lawyers' structures of production, especially the growth of large firms and the impact of technology and paraprofessionals, the distribution of lawyers across roles and access to justice, state-funded legal aid and pro bono services. The juxtaposition of the reports reveals the dramatic transformations of professional rationales, labour markets and working practices and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification within a new geopolitical order. **The Zoological Record**, 2000 **World**

Coe, 1967 For centuries the peak of Mount Kenya has held a magical and religious significance for the Bantu and Nilohamitic peoples around its base. The Kikuyu live around the Eastern and Southern boundaries and the closely related Uembu and Umeru on the S E and N E respectively.

Early in this century the Masai lived to the N W and North but after continual warfare between them and their neighbours the European administrators of that time moved them to a special reserve to the South which accounts at the present day for the retention in the Masai language of many words that refer to Mount Kenya Kikuyu folk lore tells how when the earth was formed a man named Mogai made a great mountain Kere Nyaga The fine white powder snow covering the peak which they called ira was said to be the bed of Ngai God and during male and female circumcision ceremonies a white powder was placed on the wound and the initiates were told that this material had been brought from the summit of the mountain In fact all important tribal ceremonies were and in many cases still are conducted facing the mountain Such occasions include marriage and sacrifice when in time of hardship Ngai's aid is called upon CAGNOLO 1933 KENYATTA 1938 CRIRA 1959
