

## Calibration

The AccuGreen<sup>®</sup> 3000L spreader was calibrated at the factory. However, check the calibration as follows:

1. Adjust the micrometer setting to 0.
2. Depress the trigger against the handle.
3. The front edge of the agitator bar should be flush with the calibration strip printed on the bottom of the trigger.
4. To adjust accurately, use a small screwdriver to turn the black calibration screw at the bottom end of the trigger until testing shows that coverage rate setting is correct.

## Spend a few minutes on maintenance after each use

1. Never leave products in the spreader. Once release chemical lock into the package and seal the package tightly.
  2. After each use, wash thoroughly to remove all residue clinging to the spreader. Wash water may be required if used to remove stubborn residue. Allow the spreader to dry thoroughly in the sun.
  3. Store your spreader in a clean, dry place.
- NOTE: For complete maintenance instructions.
