Cumulated Index Medicus ,1968 **Exploring More Signature Pedagogies** Nancy L. Chick,Aeron Haynie,Regan A. R. Gurung,2023-07-03 What is distinctive about the ways specific disciplines are traditionally taught and what kinds of learning do they promote Do they inspire the habits of the discipline itself or do they inadvertently contradict or ignore those

disciplines By analyzing assumptions about often unexamined teaching practices their history and relevance in contemporary learning contexts this book offers teachers a fresh way to both think about their impact on students and explore more effective ways to engage students in authentic habits and practices This companion volume to Exploring Signature Pedagogies covers disciplines not addressed in the earlier volume and further expands the scope of inquiry by interrogating the teaching methods in interdisciplinary fields and a number of professions critically returning to Lee S Shulman s origins of the concept of signature pedagogies This volume also differs from the first by including authors from across the United States as well as Ireland and Australia The first section examines the signature pedagogies in the humanities and fine arts fields of philosophy foreign language instruction communication art and design and arts entrepreneurship The second section describes signature pedagogies in the social and natural sciences political science economics and chemistry Section three highlights the interdisciplinary fields of Ignatian pedagogy women s studies and disability studies and the book concludes with four chapters on professional pedagogies nursing occupational therapy social work and teacher education that illustrate how these pedagogies change as the social context changes as their knowledge base expands or as online delivery of instruction increases
