**Informal Economy** Elisabetta Basile,2013-06-07 This book explores the economy and society of Provincial India in the post  
Green Revolution period It argues that the low quality of capital development in India s villages and small towns is the joint  
outcome of the informal economic organisation that is strongly biased in favour of capital and of the complex stratification of  
the workforce along class and caste lines Focusing on the processes of growth induced by the introduction of the high yield  
varieties in agriculture the book demonstrates that a low road pattern of capitalist development has been emerging in  
provincial India firms compete over price and not over efficiency with a constant pressure to reduce costs in particular labour  
costs The book shows that low skilled employment prevails and low wages and poor working conditions are widespread  
Based on original empirical research the book makes a valuable contribution to the debate on varieties of capitalism in  
particular of the Global South It is of interest to academics working in the fields of Development Studies Political Economy
