Automation in Mining, Mineral, and Metal Processing 1989 V. Köppel,1990 Hardbound Changing market conditions leading to increased competitiveness higher quality control reduced costs and greater capacity mean that the development and automation in mining and in mineral and metal processing is facing challenging times The Symposium reflects the growing need amongst mining and related industries to improve and develop their automated systems to tackle those new challenges The papers provide essential information covering areas such as mining electric furnaces steel blast furnaces rolling and computer applications *Highway & Heavy Construction* ,1978 *Low-Income Homeownership* Nicolas P. Retsinas,Eric S. Belsky,2004-05-28 A generation ago little attention was focused on low income homeownership Today homeownership rates among under served groups including low income households and minorities have risen to record levels These groups are no longer at the margin of the housing market they have benefited from more flexible underwriting standards and greater access to credit However there is still a racial ethnic gap and the homeownership rates of minority and low income households are still well below the national average This volume gathers the observations of housing experts on low income homeownership and its effects on households and communities The book is divided into five chapters which focus on the following subjects homeownership trends in the 1990s overcoming borrower constraints financial returns to low income homeowners low income loan performance and the socioeconomic impact of homeownership **Diesel Power** ,1958
