VISUAL ESSAY

Thesis

Upon further analysis, it is evident that in the two stories, "The Metamorphosis" and "Elf", the relationships between the main characters and their fathers are solely based on the abilities that their sons have to make money.

THE METAMORPHOSIS

&
elf

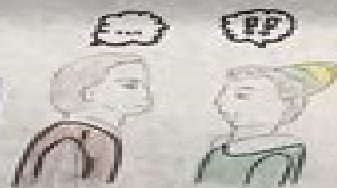

Example 1

For instance, by looking at the relationship between Gregor and his father, one can see that Gregor's father is distant and unaffectionate. His father is dependent on him to sustain the household and once Gregor is unable to do so, his father sees him as a useless person.

Example 2

In the movie, "Elf", Buddy and his father share a similar relationship that Gregor and his father have. They both are unapproachable to their sons and depend on them to make money and support the household. For example, when Buddy is first trying to meet his dad, he wants nothing to do with him; However, his dad uses Buddy and his story to publish and make money off of it.

Compare

Conclusion

It is evident that in both of these stories, the characters do not have the typical father-son relationship with their fathers. Upon further analysis, it is clear that the Marxism theory plays a major role in both "The Metamorphosis" and "Elf". Because Buddy and Gregor cannot contribute anything to society, such as money, their fathers see them as unavailing.

After analyzing both stories and relationships, we can conclude that they are both clear examples of how our society is today. Men are expected to work and make all the money to carry the house, and when they cannot do so, they are shamed by society and made to think that they are useless.

Integrative Strategies for the K-12 Social Studies Classroom Timothy Lintner, 2013-03-01 While the concept of integration or an interdisciplinary curriculum has been around for decades the purposeful practice of integration is a relatively new educational endeavor Though classroom teachers often say they integrate there generally seems to be a lack of understanding of what this thing called integration is theory and what it is supposed to look like in the classroom practice Arguably no other discipline has felt the pressure to integrate more than social studies Marginalized by federal initiatives such as No Child Left Behind and suffering from a general crisis of credibility social studies has been pushed further and further to the proverbial back burner of educational importance Yet regardless of perspective or position social studies remains ripe for integration The crux of this book is to provide educators insights and strategies into how to integrate social studies with other discipline areas Calling upon national experts in their respective fields each chapter chronicles the broad relationship between individual content areas and social studies Multiple examples of integrative opportunities are included At the end of each chapter is a series of grade specific integrative lesson plans ready for implementation This book was purposefully designed as a how to hands on ready reference guide for educators at all stages and all levels of teaching
