Systematic Classroom Assessment Sarah Bonner,Peggy Chen,2019-03-22 Systematic Classroom Assessment promotes a fresh vision of assessment for student learning and achievement Using a framework that positions assessment as both an iterative purposeful cycle of inquiry for teachers as well as a coherent system of activities through which students engage in their own learning this framework for classroom assessment is unique in incorporating self regulated learning motivation and non cognitive processes Key components such as assessment for learning feedback emerging technologies and specific content areas are treated in depth and fundamental principles like reliability validity and fairness are approached from the classroom perspective

Designing Learning with Digital Play Fei Victor Lim,Weimin Toh,2025-12-15 Lim and Toh provide updates on recent research on digital play and learning and unite game based learning with multimodal and social semiotic theories They adopt the position that teachers or caregivers scaffolding is required when games are used in a pedagogical context such as the classroom The book offers a nuanced view of the nature and properties of games beyond motivation including the students interest and use of digital play The chapters explore the varied ways in which games are designed to promote critical thinking and reflection It expands on the teachers or caregivers scaffolding of students digital play in pedagogical contexts such as in a classroom setting where students are guided to reflect on how they perceive the representations in the game world With this openness and interest towards digital play the authors argue that it is timely for us to examine the value of digital play for learning that it can foster literacy development as well as promote growth in the affective domain They echo the call for design principles in digital play to inform the design of students learning experiences and explore ways in which digital play can be integrated into teaching and learning This book covers a topic which is both relevant and urgent in today s digital age Of interest to anyone involved in designing learning with digital play this volume will be of particular value to students and scholars in education curriculum design pedagogy as well as multimodality

The World of Games: Technologies for Experimenting, Thinking, Learning

Daria Bylieva, Alfred Nordmann, 2023-11-23 This book reflects the various dimensions of play It gathers together experience with role play tabletop and online games and develops and assesses tools It also reflects the human condition in this world of games as it becomes a digital world We are living in a World of Games where every game is a world through which we learn about the world A World of Games is fun and engaging but it also provides deceptive pleasures What may seem like fun is far from harmless And then there are the many ways of learning in the mode of play **(5 th International Conference on Lifelong Education and Leadership for ALL-ICLEL 2019** Prof. Dr. Osman TITREK, Assist.
