Language Testing, Migration and Citizenship Guus Extra, Massimiliano Spotti, Piet Van Avermaet, 2009-06-23 What is required to achieve civic integration and citizenship in nation states across the world Should language testing be a part of it This book addresses the urgent need to develop a fuller conceptual and theoretical basis for language testing than is currently available to enable widespread discussion of this theme and the concomitant linguistic and cultural requirements The policy proposals for civic integration have so far been conducted almost entirely at a national level and with little regard for the experiences of a countries with long traditions of migration such as the USA Canada the UK or Australia At the same time EU enlargement and the ongoing rise in the rate of migration into and across Europe suggest that these issues will continue to grow in importance This book raises the level of discussion to take account of international developments and to promote a more coherent and soundly based debate It will appeal to researchers and academics working in sociolinguistics and language education as well as those working on language policy

Language, Culture and Identity Philip Riley, 2007-08-23 Examines how language shapes and is shaped by our identity

Multilingual Encounters in Europe's Institutional Spaces Johann W. Unger, Michal Krzyzanowski, Ruth Wodak, 2014-02-27 Multilingual encounters have been commonplace in many types of institutions and have become an essential part of supranational institutions such as the EU since their inception This volume explores and discusses different ways of researching the discursive dimension of these encounters and critically examines their relevance to policy politics and society as a whole This includes institutions at the local regional and supranational level Multilingualism in institutions is currently often seen as an obstacle rather than an opportunity at least with respect to European public and private spheres The volume asks exactly how is multilingualism conceptualized and talked about in different institutions how

do different institutions deal with multilingualism both internally and externally what are the policy making rules and challenges for the future for various institutions with respect to multilingualism **Those for Whom the Lamp Shines**

Vince L. Bantu,2023-09-26 In *Those for Whom the Lamp Shines* Vince L Bantu uses the rich body of anti Chalcedonian literature to explore how the peoples of Egypt both inside and outside the Coptic Church came to understand their identity as Egyptians Working across a comparative spectrum of traditions and communities in late antiquity at the intersection of religious and other social forms of identity Bantu shows that it was the dissenting doctrines of the Coptic Church that played the crucial role in conceptualizing Egypt and being Egyptian Based on the study of neglected Coptic and Syriac texts *Those for Whom the Lamp Shines* offers the only sustained treatment of ethnic and religious self understanding in Africa s oldest Christian church

Language, Culture and Identity Philip Riley,2007-08-23 How language shapes and is shaped by identity is a key topic within sociolinguistics An individual s identity is constituted through a variety of different factors including the social cultural and ethnic contexts and issues such as bi or multilingualism In this introduction to *Language Culture and Identity* Philip Riley looks at these issues against the theoretical background of the sociology of knowledge and ethnolinguistics He asks how do we learn who we are and what are the mechanisms that teach us this Through an analysis of the importance of culture and interpersonal communication Riley shows how social identities are negotiated The second half of the book looks at issues of ethnicity and bilingualism and the importance of a series of oppositions to others The idea of the foreigner is central to this account yet traditional views of the role of being socially other largely neglect the role of language Riley bridges this gap by examining specific and problematic aspects of multilingual identities The book concludes by looking at some of the ways in which identities are being reconfigured with particular reference to the notions of ethos and the communicative virtues This engaging analysis of language and social identity will be essential reading for students of sociolinguistics at undergraduate and postgraduate levels

Multilingual Europe Guus Extra,Durk Gorter,2008 This book offers an inclusive perspective on the constellation of languages in Europe by taking into account official state languages regional minority languages and immigrant minority languages as constituent parts of Europe s identity Both facts and policies on multilingualism and plurilingual education are addressed in case studies at the national and European level The themes of the book are addressed from phenomenological demographic sociolinguistic and educational points of view
