Your Personalized Guide to Academic Success Grace Charles, 2009-08-10 GRACE CHARLES award winning high school student Yeshiva University valedictorian and medical student at Mount Sinai School of Medicine has years of experience tutoring high school and college students But her forte is in helping aspiring students like yourself to excel Here she teaches you exactly how to succeed in high school This thoughtful guide emphasizes the development of both an academically well rounded student and an overall successful individual The skills and character traits you develop will help you to do well in many aspects of your life both in and out of school With this interactive guide you will enjoy an academic program tailored to your individual preferences and lifestyle gain confidence and a positive attitude towards your school work develop effective time management skills learn how to take concise and useful notes start to read actively and outline your texts achieve a calmer sense of mind and reduce stress in your life learn how to fully prepare for exams discover over twenty useful and effective memorization techniques acquire a keen ability to spot trick questions find out what to write when you don't know the exact answer learn how to research for create and orally present structured and intelligent reports High school is a defining time in a student's life Your accomplishments grades and overall success as a student will impact the rest of your life Make the most of your high school career with get to the Top of the Class How to Succeed in High School *Hands-On Social Studies for Manitoba, Grade 3* Jennifer Lawson, 2003 This teacher resource offers a detailed introduction to the program which includes its guiding principles implementation guidelines an overview of the social studies skills that grade 3 students use and develop and a classroom assessment plan complete with record keeping templates and connections to the Achievement Levels outlined in the WNCP Social Studies Curriculum This resource has four instructional units Unit 1 Connecting With Canadians Unit 2 Exploring the World Unit 3 Communities of the World Unit 4 Exploring an Ancient Society The Vikings Each unit is divided into lessons that focus on specific curricular outcomes Each lesson has materials lists activity descriptions questioning techniques activity centre and extension ideas assessment suggestions activity sheets and visuals *Situational Context of Education* Maria Estela Brisk, Angela Burgos, Sara Ruth Hamerla, 2004-05-20 This book gives educators important answers to the urgent question of how teachers and schools can facilitate language minority and immigrant students progress in school It offers an innovative and powerful method teachers and students can use to study the situational context of education providing both the theoretical background and the practical tools to implement this approach The situational context of education includes linguistic economic social cultural and political factors as well as conditions such as students personal characteristics family support and quality of instruction All of these factors influence the lives of students and their academic performance and contribute in many ways some subtle and indirect to making the educational experience more or less difficult for different students The premise of the book is that objective study of the

situational context of education by both students and teachers is beneficial because it leads to a more realistic view of how to facilitate students progress in school. Designed as a text for graduate courses for preservice and in service teachers working with students in bilingual ESL mainstream and special education classrooms the goal is to engage readers in learning not only from the literature but also from studying the situational contexts of their own students. The focus here is on the factors that affect language minority and immigrant students in the United States but the framework is equally powerful for work with student populations in other social contexts. The Introduction includes an overview of the theory behind the study of the situational context of education and the implementation of this approach describes the context of the pilot lessons included in the book and explains how to use the lessons detailed in later chapters. Chapters 2-6 focus on different factors in the situational context of education: linguistic, economic, social, cultural, and political. A three part structure is used: Classroom Implementation, a rich description of one lesson in a real classroom; Context Variables, a theoretical explanation of the specific factor the chapter addresses providing the research basis for the sample lesson objectives; Doing Analysis of the Context, several sample lessons for implementation. The lessons are addressed to the teacher with detailed ideas on how to carry out the lesson and evaluate the students understanding of the situational context. Five Appendices provide helpful resources for the implementation of the lessons: an Annotated bibliography of relevant K-12 children's literature; Instructional Approaches; Scoring Rubrics for Content Objectives; Guidelines for a Contrastive Study of Situational Context; and Lesson Template. The lessons have been thoroughly field tested with students and teachers. Because these lessons work on multiple levels, *Situational Context of Education: A Window Into the World of Bilingual Learners* benefits students from first grade through preservice and in service teachers in university courses. Teachers get to know their students and their predicaments within the social context of the United States and at the same time the lesson activities have a great impact on the students in their classes. All are helped to achieve academically while gaining awareness of situational factors affecting their lives.
